

AMERICA MUST SAVE EUROPE, DECLARES VANDERLIP

Make Germany Fulfill All Terms of Peace Treaty

MAY FORCE DELIVERY HUN WAR GUILTY

Allies About to Answer
Dutch Note, Refusing to
Give Up Ex-Kaiser

REAFFIRM DEMAND FOR WILHELM'S SURRENDER

Swift, Drastic and Uncom-
promising Action by Al-
lies Agreed Upon

LONDON, Feb. 6.—The Allied re-
ply to the Dutch note refusing ex-
tradition of the former kaiser will be
a distinct reapplication of the origi-
nal Allied demand that he be deliv-
ered to them for trial, it was stated
on good authority here today.

The note, which was drafted in
Paris, was received in Downing street
yesterday and was submitted to
Premier Lloyd George and the cabinet
for their inspection before it is
transmitted to Holland.

The outstanding features of the
Allied communication, according to
authoritative officials, is a rebuttal
of the Dutch legal arguments
against extradition. The communica-
tion, it was said, cannot really be
classed as a reply, for it is a dis-
tinct demand for extradition, the
mand for surrender of the former
emperor of Germany.

Imperative for Extradition
The note, it was said, contains
additional information and argu-
ments why extradition is desirable
and even imperative.

The second section, it was in-
timated, offers the alternative that
should Holland refuse to submit to
this demand for extradition, the
Allies must make it clear they can-
not consent to the former kaiser's
remaining in Europe, and that Hol-
land must remove him to some place
where it will be impossible for him
to return to Germany.

Members of the British cabinet
and the French government, it was
said, consider restoration of the
monarchy in Germany is not at all
impossible, if the former kaiser had
the "backbone" to carry out such
a plan.

Allied leaders, it was said, con-
sider as particularly significant the
German attempt to evade delivery
of war criminals, whose surrender
is demanded by the Allies.

There are no threats of an eco-
nomic blockade against Holland in
the note, it was said, but the com-
munication does convey the unal-
terable determination of the Allies
to carry out the peace treaty to the
letter.

Use Force if Necessary
Commenting on the Allied demand
to Germany that she surrender 845
war criminals, officials said it was
the unanimous viewpoint of Allied
leaders that force should be used if
necessary to force German compli-
ance.

This was considered necessary for
two reasons:

First, the demand offers a real
test for Germany's intentions to-
ward observance of the Versailles
treaty. The Allies consider it a
precedent which will determine fu-
ture German attitude toward terms
of the pact.

Second, surrender of the war
guilty is necessary for the uphold-
ing of future international law in
war. Therefore, the Allies have
agreed that action must be swift,
drastic and uncompromising.

TWELVE IN I. W. W. JURY BOX TODAY

GRAYS HARBOR COURTHOUSE,
MONTESANO, Wash., Feb. 6.—The
twelve men who will try the eleven
alleged I. W. W. on charges that they
committed murder at Centralla on
Armistice day will be in the jury
box when court opens this afternoon.
Arrests
The monotony of questioning the
talesmen, however, for two alternate
jurors must be chosen. There was
no morning session today.

Miss Lane to Be Married On April 20

Washington Society Astir Over Wedding of Secre- tary's Daughter

WASHINGTON, Feb. 6.—Miss
Nancy Lane, daughter of the Secre-
tary of the Interior, will become a
bride on April 20.

The lucky man is Phillip C. Kauff-
man, son of Mr. and Mrs. Victor
Kauffmann of Washington.

Social Washington is already astir
over the event, planning compli-
mentary teas, etc.

MARKET TURNS AND FOREIGN MONEY AND STOCKS SHOW GAINS

NEW YORK, Feb. 6.—Wall street
has not seen wilder market move-
ment in recent years than that which
characterized the last two hours of
trading on the stock exchange today.
After being depressed to the lowest
levels, the whole market turned in
the last hour and prices were rushed
upward in headlong fashion. Gen-
eral Motors recovered more than 12
points from its extreme low, and val-
ues in other issues were proportion-
ately raised.

After selling at 97½, United
States Steel rebounded above par.
Demand sterling closed at \$3.29½
on the money market.

RECOVERY IS RAPID
NEW YORK, Feb. 6.—The "ex-
change which slumped in value badly
in the last few days, developed
strength at the opening of the money
market today and recovered rapidly.

The British pound sterling opened
at \$3.34, an advance of five cents
from the previous close, and then
rose five cents more to \$3.39, repre-
senting a jump of 20 cents from the
low it reached on Wednesday.

French francs were quoted at 14.32
per dollar, up 48 centimes, and Ital-
ian lire, 18.32, up 40 centimes.

The German marks, however, con-
tinued weak at \$0.106.
Sterling subsequently reacted to
\$3.34½ after selling above \$3.39.

Downward Trend Halted
NEW YORK, Feb. 6.—The stock
exchange opened as usual at 10
o'clock today but was immediately
closed to reopen at 10:30 owing to
the traffic delay throughout New
York and vicinity.

Sterling demand on the foreign ex-
change opened at \$3.34, up to 5
cents.

In the first few minutes, sterling
rose an additional five cents to
\$3.39.

The rapid recovery of sterling was
reflected in the stock market when
trading began on the exchange.
When it became known that the
British pound had jumped ten cents
from yesterday's close, the whole
list strengthened and first sales were
made at rising prices.

Crucible opened at 215, up ½;
New York Central, 67½, up ½; Cen-
tral Leather, 85½, up ½; Texas,
177¼, up 1¼; Republic, 107½, up 2;
U. R. Stores, 75½, up ¼; U. S. Rub-
ber, 105½, up 1¼; Pan-American,
82½, up 2; General Motors, 282, up
7; Baldwin, 110½, up 2½.

The market eased off from the
opening levels in the first hour. U. S.
Steel sold down to 100¼; Baldwin
to 109½; General Motors, 279¼;
Mexican Petroleum to 181½; and
American Woolen from 136½ to 135.

MAKE PLANS FOR TREATY FIGHT IN SENATE

"Bitter Enders" and Demo-
crats to Outline Policies
at Meeting Tomorrow

By L. C. MARTIN
United Press Staff Correspondent

WASHINGTON, Feb. 6.—Repub-
lican "bitter enders" of the sen-
ate will meet tomorrow to decide how
best to launch the attack they hope
will again prevent ratification of the
peace treaty.

Senators favoring flat rejection are
hampered by the fact that they can-
not learn the plans of Senator Lodge,
leader in the fight for ratification
with strong reservations.

Ten of them met yesterday in an
effort to determine their course when
the treaty is called up Monday, but
were unable to agree.

Lodge expects irreconcilables will
attempt a filibuster Monday when he
moves to suspend the rules and pro-
ceed to consideration of the treaty.
Under the rules they can talk end-
lessly on this motion. Some of the
irreconcilables urged that an ultim-
atum be served on Lodge, threaten-
ing to tie up the treaty indefinitely
unless he agreed that no effort would
be made to limit debate on the
treaty itself.

Viscount Grey's letter has appar-
ently stiffened the resolution of the
"bitter enders" never to let the
treaty be ratified if there is any way
to prevent it. For that matter, the
Grey letter has evidently strength-
ened the determination of every fac-
tion in the treaty fight.

Democratic leaders, who resent
Grey's action, declared today it has
banished from their minds any
thoughts of yielding to the Lodge
program.

Lodge's group claims to find in
Grey's letter endorsement of their
program of reservations and this has
made them insist that acceptance
of that program is the price of ratifi-
cation, while the irreconcilables
are planning a fast and furious cam-
paign for complete rejection. The
Lodge group and the Democrats are
making equally careful plans.
Neither side has yet determined its
course of action on Monday. Lodge
is undecided whether to present his
reservations in their original form
or in the form in which they had
been tentatively agreed on in the bi-
partisan conference when that com-
promise effort failed. The Demo-
crats are to determine their course
at a meeting to be held at the same
time the Republican irreconcilables
meet.

VILLA HOLDS YANK FOR \$20,000 RANSOM

WASHINGTON, Feb. 6.—Francisco
Villa is holding Joseph A. Askew,
an American citizen for \$20,000 ran-
som, according to a report received
today by the state department.

The state department was advised
that Askew, an employee of the Tia-
huallio company had been kidnapped
by bandits during an attack on the
company's plant at Lerdo, state of
Durango, on the night of February
2nd.

DEMOCRAT SENATOR LAMBASTS THE G. O. P.

NEW YORK, Feb. 6.—Picture of a
rank failure—as painted by Homer
S. Cummings—the Republican con-
gress. At a dinner in his honor here
last night, the Democratic chairman
asserted the American people have
paid "and still are paying a stagger-
ing price for electing this Republi-
can congress." Congress every at-
tempt to settle post-war industrial,
financial and social problems has
met failure, Cummings charged.

LEAGUE MEETS FEB. 11
LONDON, Feb. 6.—The council of
the League of Nations will hold its
next meeting in London February 11,
it was learned today.

CZECHS RETAKE IRKUTSK
LONDON, Feb. 6.—Irskutsk has
been retaken by the Czech forces in
Siberia, according to a dispatch to
the Daily Mail.

Huns Threaten To Repudiate Peace Treaty They Signed

LONDON, Feb. 6.—The Allied
demand for surrender of Ger-
many's alleged war guilty, "is an
act of revenge worse than Shy-
lock's, Gustav Noske, minister of
defense in the Ebert government,
was quoted as saying in an inter-
view cabled the Daily Mail today.

"Surrender of the accused Ger-
mans is a practical impossibility,"
the correspondent quoted Noske
as asserting.

A German wireless dispatch
said Kurt von Lersner, former
head of the German delegation in
Paris, who refused to transmit the
Allied list of war guilty, was in-
structed last Saturday to transmit
the list when it was handed to
him, to the German foreign office.

LINER IS ASHORE WITH CREW OF 72, AND 32 PASSENGERS

NEW YORK, Feb. 6.—Shore wire-
less stations today received a wire-
less message from the Old Dominion
liner "Princess Anne" ashore on
Rockaway Shoals, stating that the
ship is gradually filling with water
and asking that tugs be dispatched
to remove its passengers.

Tugs were reported to have left
the army base at South Brooklyn
to attempt to reach the Princess
Anne.

The liner carries a crew of 72 and
has 32 passengers on board.

LOS ANGELES LEADS IN INFLUENZA CASES

SACRAMENTO, Feb. 6.—Los An-
geles still leads in the influenza race
in the number of cases reported, ac-
cording to an announcement from
the state board of health today. Yes-
terday's report for that city was
417 with 3 deaths. San Francisco
came second with 310 cases and 18
deaths. The total number of cases
reported for yesterday in the state
are 1385, an increase over the day
previous.

WASHINGTON, Feb. 6.—Between
700,000 and 800,000 cases of influenza
exist in the country it was estimated
today at the office of the U. S. Pub-
lic Health Service. The total number
actually reported, however, is be-
tween 300,000 and 400,000.

CAR OVERTURNS, MAN HURT, BY BLOW-OUT

LONG BEACH, Feb. 6.—M. L. Ber-
nie, of the American Beet Sugar
Company, of China, was seriously in-
jured in an automobile accident at
Sixth street and American avenue.
The blowing out of a tire caused the
automobile, a light car, to over-
turn. R. J. Hoefler, also of China,
was driving, but escaped with slight
bruises and cuts.

Bernie was pulled from beneath
the car in an unconscious condition
and taken to the Seaside hospital,
where it was learned that he had
suffered severe scalp lacerations and
concussion of the brain. An X-ray
examination showed that the acci-
dent victim was not suffering from
a fractured skull, as first supposed,
and indications are that he will re-
cover.

BABY DROWNED WHILE AT BIRTHDAY PARTY

OXNARD, Feb. 6.—The finding of
Edward Eugene Bays, aged 2½ years
dead and floating face downward in
a lily pond in the rear of the Wilbur
Stiles ranch home near Camarillo,
ended tragically the birthday party
which Mrs. Stiles was giving for her
daughter, Thais, and at which little
Edward was a guest.

The accident was discovered when
Verna Bays came running into the
Stiles home, saying she could not
find her brother, Edward. When the
mother, Mrs. H. A. Bays, reached
the pond, life was already extinct.

BURGLAR FREES DOG
LONDON, Feb. 6.—Burglars loot-
ing a Twickenham home added in-
sult to injury by unchaining the dog.
It got into the street unmuzzled,
and the owner was fined \$5.

ASK PASSAGE OF SEDITION LAWS, CURB RADICALS

"Tens of Thousands Advo-
cate Overthrow of Govern-
ment" Declares Newton

BETWEEN 300,000 and 500,000
persons in New York City alone
favor the destruction of all govern-
ments, Attorney General Newton of
New York state declared before the
house judiciary committee today, in
urging sedition legislation. A great
quantity of revolutionary literature is
being circulated continuously, New-
ton said, tons of which has been
seized by the state authorities.

WASHINGTON, Feb. 6.—"Tens of
thousands of radicals of the viol-
ent type are daily advocating over-
throw of the government and estab-
lishment of a dictatorship such as ex-
ists in Russia," Attorney General
Newton of New York, declared today
before the house judiciary committee
in urging passage by congress of se-
dition legislation.

Newton attacked the left wing of
the socialist party, the I. W. W., the
communists, and other kindred or-
ganizations.

"The efforts of these violent rad-
icals are encouraged and the aims
they are pledged to accomplish are
boldly set forth and glorified by a
press equally as radical and violent
as the advocates of revolution them-
selves," he said.

Newton charged that the left wing
of the socialist party in a manifesto
published last July declared for re-
pudiation of all national debts.

"This means an advocacy of the
repudiation of all Liberty bonds and
other government obligations held
by patriotic citizens who loaned the
country billions in time of war. Un-
less congress and the people of the
country awaken to the dangers of
these doctrines and take steps to
curb this propaganda the problem
of coping with this movement will
become more difficult as time
lapses."

BANK MEN TESTIFY IN NEWBERRY TRIAL

GRAND RAPIDS, Mich., Feb. 6.—
Adding machine testimony in the
Newberry trial here was relied up-
on today by the government to
show what an important part
finances played in the senator's 1918
campaign.

The government brought in bank
officials to show sums on deposit for
the Newberry committee.

According to testimony thus far
on record, various Newberry funds
in 1918 were:

Commonwealth Federal Savings
Bank, Detroit, \$178,857.20. Balance
when withdrawn after the campaign,
\$29,756.58.

Account of Charles Floyd, New-
berry's Grand Rapids manager, \$11,-
280. Of this, \$11,245 was withdrawn
during the campaign.

L. TITUS NOMINATED FOR SHIPPING BOARD

WASHINGTON, Feb. 6.—The
President sent the following nomina-
tions to the senate today:

To be a member of the inter-
state commerce commission, Henry
C. Stuart of Virginia.

To be a member of the United
States shipping board, Louis Titus of
California.

Stuart is a Democrat, formerly
governor of Virginia, and is now a
member of the second industrial con-
ference.

Its revision was undertaken when
the union representative indicated it
was unsatisfactory. The original
plan provided for wage boards to
hear arguments. The rail unions
want the wage matter settled at
once.

Movie Star Says Girls Can Dress on \$5 a Week

That Makes \$260 a Year;
But She Doesn't Tell
How to Do It

NEW YORK, Feb. 6.—Alice Brady,
movie and stage star, and one of the
best dressed women on the screen
or stage, says that a girl can dress
well on \$5 a week.

Of course, that is \$260 a year, but
a year is a long time in these days
of changing fashions and seasons.

Anyway, Miss Brady hasn't told
just how to dress well on five bucks
per, and so far as known it isn't re-
corded that she limits her expendi-
tures to that amount of money.

MILLION DAMAGE TO SHORE PROPERTY BY BIG ATLANTIC GALE

NEW YORK, Feb. 6.—The Atlan-
tic coast from New England to Vir-
ginia was being swept today by the
severest gale of the winter, accom-
panied by heavy rains and snows.

New York and Boston were cut
off from many of their suburbs
through failure of transportation.
Street traffic was demoralized. In
addition New York was threatened
with a serious coal shortage unless
ways are found to move enormous
supplies into the city. High tides
along the coast increased the men-
ace from heavy seas rolled up by the
wind.

Seaside resorts around New
York suffered property damage es-
timated at more than \$1,000,000. The
weather bureau predicted more snow
tonight with little likelihood that the
storm will abate before Saturday
night.

NEW YORK, Feb. 6.—Greater New
York was bending every effort today
to fight the snow storm that has
held the city in its grip for two days
and to dispel the threats of a coal
shortage that might prevent opera-
tion of transportation systems and
other public utilities.

Surface street car lines were oper-
ating today at about 20 percent of
normal. Elevated lines were handi-
capped. Thousands of New York
workers were stranded in suburbs,
unable to get to work on time.
Street traffic was slow and uncer-
tain on account of accumulated
snow.

TO CONTINUE TO SUNDAY

WASHINGTON, Feb. 6.—The bliz-
zard now gripping the eastern states
must be endured until Saturday
night, United States weather bureau
experts said today.

The storm is expected to blow into
the Atlantic early Monday morn-
ing.

RECOGNIZES RIGHT TO REMOVE SOLDIER DEAD

WASHINGTON, Feb. 6.—Announ-
cement that the French government
has recognized the validity of this
government's claim of the right to
remove its soldier dead was made to-
day by Chairman Stephen E. Porter,
of the house foreign affairs commit-
tee. Assertion that the bodies of
American soldier dead returned to
this country will in no case be con-
signed to private undertakers ex-
cept by direction of the next of kin
was given in an announcement by
the war department.

MATERIALS AND FOOD GREATEST DEMAND

Billion Dollars Worth Need-
ed Quickly, Declares
Financier

'STOP EXTRAVAGANCE, PRACTICE ECONOMY'

Up to United States to Keep
Europe at Work Rebuild-
ing Industries

(Copyright 1920 by United Press)

NEW YORK, Feb. 6.—Frank A.
Vanderlip, who first called atten-
tion to Europe's serious economic de-
cline nine months ago, declared in a
statement to the United Press today
that the foreign exchange situation
can be righted and Europe can be
put on her feet only if the Europeans
will go back to work.

But Europe can only do this, he
said, if America will supply her with
food and raw materials.

The former head of the famous
National City Bank of New York
added that America can easily un-
dertake the work of rehabilitation.
The first step, he said, was the most
important, though it need not be a
large one.

"A billion dollars will go a very
long way," Mr. Vanderlip stated, in
starting Europe on its way to pro-
duction. But, it must be a billion
dollars spent for food and raw ma-
terials. It must not be a billion dol-
lars spent on any financial rehabili-
tation.

"This is the first move necessary
to help the exchange rates recover.
The present decline in exchange
tends now to halt our exports. It is
conceivable the halt might occur
very sharply. To a considerable ex-
tent, ships are now going to Europe
without full cargoes. Last year we
exported eight billion dollars worth
of goods, and the trade balance in
our favor was four billions. In pre-
war days trade balance of \$600,000,
000 for us was about the top figure.
These figures indicate that if the
halting of our exports goes far
enough it will result in a jar that
will pile up cotton, agricultural pro-
ducts and, to some extent, manufac-
tured goods. I do not believe such
a situation would result in any seri-
ous unemployment for us. There
might be some thrown out of work,
while, a process of readjustment
went on, very little hardship would
follow. Our consuming capacity is
greatly in excess of our present
consumption.

It is rather psychological that we
should feel a continuation of the
present decline in exchange. The
situation now facing us means the
people on the other side are un-
able to pay for what they vitally
need, and that their economic life
has become disorganized.

Influences U. S. Affairs
Economic disorganization in Eu-
rope must have an unfavorable in-
fluence on our own affairs. If over
there financial disorders occurred,
they would affect our thoughts here.
Just as we have a considerable pub-
lic opinion sympathetic to Russia,
so might there be a body sympa-
thetic to any political disorders in
Europe. An increase in radical
thought in America would be en-
gendered by radical political move-
ments in Europe. The present situa-
tion is creating ill-health and hunger
among the Europeans and those are
the two principal factors in devel-
oping political unrest.

"There is no cure you can take
out of a patent medicine bottle. The
cure for Europe to produce more
so that Europe can pay for what it
must import. But, it is hardly to
the point to insist that Europe must
go to work and stop at that. Cer-
tainly Europe must work, but it
must have something to work on,
and raw materials to work with,
and in the meantime it must have
food to support the people. Just now
the people of Austria and other
Central European countries are ex-
hausted and dying of starvation.

We Must Assist Europe
"I doubt the wisdom of our gov-
ernment granting more credits to
Europe. At the same time the cred-

(Continued on page three)

TO INVESTIGATE LOS ANGELES GIRLS' CLUB

Great enthusiasm was shown by the crowd of girls who met in the building at Third and Spurgeon streets to talk over plans for the organization of an athletic club for the young business women of Santa Ana, and for any other women, married or unmarried, who are interested in athletic training.

Thirty-five girls were at the meeting and showed the "never die" spirit and agreed to get behind this movement for a club with club rooms where the members can go for clean, healthy enjoyment, and make a success of it, if possible. Those who attended to talk the situation over had faith enough in the success of the venture to "come through" with the membership fee, \$700 being raised in very short order.

It has been learned that there is a similar club in Los Angeles called the Blue Triangle, that gets its financial backing from the Y. W. C. A. but is not entirely under the supervision of that organization.

As financial backing is what the local club needs until it is self-sufficient, that is, until the treasury is replenished after all equipment expenses are settled, a committee of six, Misses Mabel McFadden, Irene Bowen, Hazel Shields, Hester Olewiler and Mrs. Wm. McKay and Mrs. Cecelia M. Best, was appointed to go to Los Angeles Saturday afternoon to visit the Blue Triangle and to find whether the Y. W. C. A. will give the necessary financial help here. It is understood, however, that the Y. W. C. A. will not come into a town of less than 25,000 population, so very little help is expected from that quarter.

It was remarked at the meeting by a few of the girls, who solicited donations for the Y. W. C. A. some time ago, and who were instrumental in raising a fund of over \$400, to be used outside of this city, that it is strange that the local people thus far have taken so little interest in the welfare of the local girls. It was suggested that it may be necessary to have the Y. W. C. A. name behind the girls before they will meet with success. In that case, matters will have to rest as they are, perhaps, until Santa Ana has a larger population.

The committee appointed will go to Los Angeles Saturday, however, and see what can be done. A report will then be given next Monday evening at 7:30 o'clock at the home of Miss Mabel McFadden, 908 North Main street. Each girl who intends to stay with the club are requested to turn in \$20 to Mrs. Cecelia Best at the First National Bank, before Saturday noon, in order that those who wish to go ahead may know where they stand.

One of the membership lists is still out and Mrs. Best would like to have that also, before Saturday noon.

DYE OLD, FADED DRESS MATERIAL

"Diamond Dyes" Make Shabby Apparel Stylish and New

Don't worry about perfect results. Use "Diamond Dyes" guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, covering.

The Direction Book with each package tell so plainly how to diamond dye over any color that you cannot make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.

on bottle.—Adv.

Southern California

PASADENA, Feb. 6.—The erection of a new church is planned by the congregation of the First Methodist church. On next Sunday they will attempt the raising of \$127,000 to purchase the southeast corner of Oakland avenue and East Colorado street. If that action is taken, the church will then dispose of its present property at the southeast corner of Colorado street and Marengo avenue and use the money in erecting a new church structure. The present property is said to be worth \$300,000.

REDONDO BEACH, Feb. 6.—While attempting a dare-devil stunt in his work of doubling for a noted film star, Clem Beauchamp narrowly escaped death in an accident at the Santa Fe tracks, on the El Segundo road.

A picture being produced shows a motorist escaping from followers. He leaps over a moving freight train. A chute had been built, according to reports, and the automobile, coming down this runway at a terrific speed, was to leap forty feet through the air and clear the train. Some way the plan was wrong, and, while it was very evident from the appearance of the man that the car had leaped, it was also evident that it had found its way back to earth. The machine was a total wreck.

SANTA MONICA, Feb. 6.—Mrs. Gene Harris pleaded guilty to a charge of assault and battery brought against her Monday night by Peggy English, an actress playing with a vaudeville troupe at the Rialto theater here. Mrs. Harris paid a fine of \$10.

Miss English alleged that Mrs. Harris struck her because the latter thought that she was interfering with the domestic felicity of Mr. and Mrs. Harris.

VENICE, Feb. 6.—The school trustees of Venice voted to build a cottage addition to the Island avenue school and the Lincoln school, and arrangements have been made to accommodate pupils in the auditorium of the Central school. It is believed that this will materially relieve the congestion of the grammar schools. Three new teachers will be added to the faculty of the schools.

LADY PINK TOES HAS HER INNINGS

There is no excuse today for women to have ugly, painful corns

For a few cents you can get a quarter ounce of the magic drug freezone recently discovered by a Cincinnati chemist.

Apply a few drops of this freezone upon a tender, aching corn or callus and instantly, yes, immediately, all soreness disappears and shortly you will find the corn or callus so loose that you lift it out, root and all, with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet, just seem to shrivel up and fall off without hurting a particle. It is almost magical.—Adv.

PERSONALS

Mrs. Ella Campau returned this week from an extended visit in San Diego with friends.

Roy Andre of Brawley, Imperial Valley, is in Santa Ana for a few days' stay.

Mr. and Mrs. D. G. Cole have been called to Stockton by the illness of the entire family of Mr. and Mrs. Ernest Wakeham, the latter being their daughter. Mrs. Wakeham has sufficiently recovered to leave the hospital. Mr. and Mrs. Cole are making the trip by automobile.

Homer Edwards, who has undergone a serious operation at the Anaheim sanitarium, is not doing as well as was expected and his relatives and friends are anxious over his condition. He is a brother of Mrs. Anna Clark and Mrs. Will English.

Loren Mead has returned from a business trip to New York city in the interests of the Standard Oil Company. While absent he visited New York, Chicago, Buffalo and Cornell college.

George West left last night for Loveland, Colorado, where he was called by the serious illness of relatives. He will be gone some time.

O. Gabriel, roadmaster for the south end of the Los Angeles division of the Santa Fe Railway Company, was in this city on official business yesterday.

Dr. and Mrs. J. E. Collins of Pueblo, Colorado, and Mrs. Elizabeth Fritcher of Mason City, Iowa, who are spending the winter in Southern California, are guests of their cousin, Mrs. E. G. Holmes, of North Main street.

Marriage Licenses

Jesus M. Martinez, 42, and Pres. Iana Maciaz, 40, both of Anaheim. Raymond E. Grimm, 23, and Ida Bentzen, 18, both of Anaheim. Earl E. March, 24, and Ethel H. Rohrig, 23, both of Upland. Robert N. Branch, 26, and Ellen E. Shewman, 21, both of Pomona.

CITY AND COUNTY BRIEFS

The following letters remain unclaimed in the post office at Santa Ana, Cal., for the week ending February 7, 1920: W. S. Adamson, Australia; Carralal, Madame Adeline; Roman Hernandez, Eusebio; Hinojos, J. E. Jones, Faustino; Lopez, Jose; Ochoa, Mrs. W. C. Perry, F. G. Spencer. If not called for within two weeks, the above letters will be sent to the Dead Letter Office.

COCHEMS MUST MOVE

As a consequence of Santa Ana's leap into prosperity, and because there is a shortage of stores, Santa Ana can't stand still and NEVER WILL. The landlord will build, therefore Cochems must MOVE or stand in the way of progress. Our large stock of frames, pictures, art photos, etc., must be reduced within the next 30 days. Also portraits at greatly cut prices. Better come in and investigate. COCHEMS, The Photographer, 304 West Fourth

POLLYANNA HERE IN ALL HER GLADNESS

"Mary Pickford's great, isn't she?" "That was sure worth seeing." "My, I'm glad I came."

Such were just a few of the comments last night, as Temple theatre patrons emerged from the show where they had just seen Mary Pickford in her latest and gladdiest success, "Pollyanna." Mary, in all her glory, smiled through her tears and was GLAD all the time.

"The good Lord wouldn't have told us eight hundred times to 'rejoice and be glad' if he hadn't wanted us to—some," Pollyanna told a friend who had been "enjoying poor health" for many years.

PACKED 150 TONS OF SARDINES IN A DAY

LOS ANGELES HARBOR, Feb. 6.—The world's record for the largest quantity of sardines packed by any cannery in one day was established here when the Nielsen & Kittle Cannery at Fish Harbor put up more than 150 tons of the fish.

This is fifty tons more than any other cannery is reported as having packed in a day. The Nielsen & Kittle Cannery is the largest fish cannery in the world. The heaviest catches of sardines of the season have been brought in during the last week, and it is expected that all records for production in the harbor district will be broken this week.

NAME 'BAYER' MEANS ASPIRIN IS GENUINE

Get Relief Without Fear as Told in "Bayer Package"

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Then you are getting the true, world-famous Aspirin, prescribed by physicians for over 15 years.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions to safely relieve Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monoaceticacidester of Salicylicacid.—Adv.

Latest Arrivals in Novelty Silks

—"Wonderful" is the only word that adequately expresses the character of the Novelty Silks we shall show for this Spring Season. For the designers have certainly outdone any previous effort in creating richness of coloring and pattern. As our silks arrive, we shall place them on display, so watch our show windows for such as these:

"Migel's" Genuine "Fan-Ta-Si" Silk An Exceptional Showing of Spring Silks in White

—This is an artist's new creation, in weave and conception of coloring, and the richness of design. We are showing sport skirting plaids in purple and gold, copen and silver, ivory and black, and plain white. Width 40 inches.

Spring's Fancy Plaids, in about 50 patterns just received

—These are new designs in Taffetas and combinations, exhibiting this season's new tonal effects and blending of colors, in a wide range of patterns and in several qualities. These silks come in 36 inch widths, priced from \$2.25 to \$4.50.

Silk Duvetyn in a line of colors for Street wear.

—This rich dress and coating silk can be had here this Spring in two qualities, widths of 36 and 45 inch, in colors of African Brown, Tison, Beaver, Henna, Tan, Navy, and Black. Prices, \$10.00 to \$15.00 per yard.

—For the Season 1920 we have accumulated an exceptional range of white Sport Silks and new fabrics for dresses and skirtings. These are some of the widely advertised novelties of the best manufacturers:

Melrose Satin, Sinbad Crepe, Woo Fang Shanghai, Ruff Nuff, Fan-Ta-Si, Kumsi Kumsa, Baronet Satins, Charmeuse, Silk Broadcloth, Poplins.

—These are all shown in White and Ivory, in widths of 36 to 40 inches, and priced in a wide range from \$2.25 to \$10.00 per yard.

The largest line of Silk Shirtings we have ever shown

—Our shirtings for Spring are arriving rapidly by Express. We shall show entirely new patterns and ranges of colors in such fabrics as Crepe-de-chine, Shanghai Stripes, Silk Broadcloth, 32 to 36 inches wide, priced \$2.75 to \$4.50 yd.

FEW OF ACCUSED CAN BE TRIED INDIVIDUALLY

BY M. D. TRACY
(United Press Staff Correspondent)

TOMBSTONE, Ariz., Feb. 6.—Cochise county realized today that it probably never will be able to try individually the great majority of defendants in the Bisbee deportation cases.

The shortage of man power for jury service is so apparent that attorneys believe not more than eight or ten defendants at a maximum can be brought to trial.

Those indicated for kidnapping number more than 200. Even now deputy sheriffs are going into forgotten nooks of the county and bringing in men who have not associated with their fellows for years. The jury list is fading away rapidly. Sheriff Jim McDonald has a list of 7,500 names prepared, but says not more than 60 per cent of these count. Women cannot serve on juries in Arizona, though they can vote, nor can jurors be borrowed from another county. Men over 60 are exempted.

Deputy sheriffs started early today another excursion into the cities and back country for "jury bait." The new venire will report Thursday. Swift progress was made during the first day and a half of the trial, but since then only one man has been added to those passed temporarily. Thirteen temporary jurors are now in the box, and eleven more must be obtained.

F. M. Ryan, the thirteenth man to be passed, expressed his disgust for his own business.

"I'm a dry farmer," he said, "and that's about as near nothing as you can get." He formerly lived at San Luis Obispo, Cal.

A stir of interest was created when Jim Wolf, the famous "Jim Wolf of Wolfville" in Alfred Henry Lewis' "Wolfville" stories, answered the jury roll. He lives at Lewis Springs and is a cattleman. To the disappointment of many he was excused because he is over 60.

Wolf could have stepped right into the western movie scene without a clash. He looked the part of the "typical westerner."

Arizona celebrated Arbor day today. It is a legal holiday. Court will not resume until Tuesday.

DEATHS

MOSHER—At his residence at Bol- sa, Feb. 6th, 1920, John W. Mosher, 76 years.

His widow, Mrs. Lucy G. Mosher, and daughter, Miss Jessa M. Mosher, survive him.

Private services under direction of Mills & Winbiger will be held at the home at Bol- sa, Saturday, Feb. 7th, at 2 p. m.

Interment in Fairhaven cemetery.

MANY GATHER FOR PAYING TRIBUTES

A. J. Wallace of Los Angeles, former lieutenant governor of California, was present at the funeral services of Mr. Walter Lasby yesterday, and at the request of the Rev. F. G. Davies of the First Baptist church, who had charge of the services, spoke in appreciation of the life of his cousin, Walter Lasby.

Mills & Winbiger's Mission Funeral parlors were filled with relatives and friends of the Lasby family yesterday afternoon. Prof. W. F. Lasby, a son of the deceased, who is a professor of dentistry in the University of Minnesota, was present, and also Mrs. J. C. Healy of Los Angeles, and Mrs. Addie Freeman of the same city.

Rev. Davies spoke very appreciatively of the life and love and unselfish service of the departed. "He contributed something to our life and his fellowship sweet. It was good to know him. He was a real Christian and lived the life he professed."

When asked to speak a few words, the former lieutenant governor stepped out of the family of mourners and spoke simple and tender words of gracious praise in memory of his cousin. The two were born on adjoining farms in Canada. "The little church which we both attended as boys stood on the corner of the farm where Walter Lasby was born," said he. "Walter and I learned many good lessons in that little church. Later Walter Lasby went to Minnesota, and I tried to farm in the Dakotas. Here we met again."

"Walter Lasby was a good man. I am not here to mourn but to speak words of congratulation. This man was a man of God. Mark the perfect man and behold the upright, for the end of that man is peace," whether it be the Bible character Abraham, or Walter Lasby. I congratulate every one who has a clean hope in Jesus Christ. Walter Lasby had a grip on that hand that ever leads to life."

A few words by Rev. John Oliver, pastor of the First Methodist church, concluded the services at the chapel. A. J. Lasby of 315 Washington street was unable to attend the services, being confined to his bed by illness. He is on the way to recovery.

The floral offerings were many and measured the interest of a large circle of acquaintances. "Abide with Me," and "Nearer My God to Thee" were sung very feelingly by Miss Catherine Owens and Miss Irene Cravath of the Baptist choir.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

MATERIALS AND FOOD NEEDED IN EUROPE

(Continued from page one)

Its that are needed must run for too long a term to make it feasible for banks to make the grants. Besides, our banks have expanded their credit facilities for domestic requirements to quite as high a point as is safe. That means the credit should come from our investment funds, which have been largely dissipated in the recent past by our flotations of new companies. We have great demands for domestic promotions and for such work as rehabilitating our railroads which are now in need of 600,000 cars. Nevertheless, we can at the same time assist Europe. We can expand our lending ability very much by practicing economy and stopping the present craze for extravagance.

"But our investors are not disposed to adventure into foreign securities. They can get very high returns from domestic securities, and they lack understanding and experience in foreign securities. Such investments as they have made abroad haven't been altogether happy in some instances. The remedy can only come with a realization by our people of Europe's extreme need; of our own intimate connection with European affairs, and of the reaction on us of any economic breakdown in European countries."

"In investing our funds to help Europe's recovery, the idea would not be for European governments to float loans here as they did during the war. The task is one primarily for financiers. There should be a consortium of bankers, representing the principal lending countries, that is, those which have a surplus of food and raw materials. This council of bankers would have to steady the European industrial situation and ration such credits as it could grant. It would extend credits solely with a view to starting industries and keeping people from starving. The credits should be extended only in the form of food and raw materials. The consortium of bankers would call to American investors' obligations secured by a mortgage or other security of the European factories getting raw materials and also secured by the government of the European country accepting the goods from America. This government guarantee might be in the form of a prior lien over all outstanding government loans."

Must Reach All Districts

"The degree of severity of these obligations would be high if the credits granted to Europe were on a comprehensive scale and left no areas helpless. There could be no complete safety for such investments, however, as long as there were great political districts left in want and the people in idleness. Want and idleness are not apt to lead to political revolution, which is a communicable disease."

"While the facts are pessimistic, there are some bright spots. England has done marvelously in getting her industries adjusted. Belgium, too, has done very well. But elsewhere the revival is not sufficient to warrant optimism. In some places only 20 per cent of industrial revival has occurred. Nevertheless, once a start is made in helping Europe by the United States, the situation should become much brighter. The only possible solution is in our hands. Russia cannot give immediate help. She has no raw materials on hand and her paralyzed railway system makes transportation very difficult. It would do no good for us to cancel the debts Europe owes us, for what Europe needs is the food and raw materials we can supply."

"The present situation was evident a year ago. But, the people who made the peace treaty, paid no attention to economic data. They did not understand the complicated theory of modern industry. They had not taken into consideration the fact that the population of Europe under the influence of an industrial age had grown to far larger numbers than Europe's fields can feed. But with it all, we can save Europe. We can do it if we stop our wild extravagance, comprehend the seriousness of the situation and decide it is time for us to help our neighbors. Then we shall have the world at large at our feet in gratitude."

NEGLECTING THAT COLD OR COUGH?

Why, when Dr. King's New Discovery so promptly checks it

IT'S natural you don't want to be careless and let that old cold or cough drag on or that new attack develop seriously. Not when you can get such a proved successful remedy as Dr. King's New Discovery.

Cold, cough, gripe, croup does not resist the standard reliever very long. Its quality is as high today as it always has been—and it's been growing steadily in popularity for more than fifty years. 60c and \$1.20 a bottle at all druggists. Give it a trial.

Tardy Bowels, Inert Liver

They just won't let you put "pep" into your work or play. Sick headache comes from retaining waste matter and impurities in the body.

Feel right for anything—make the liver lively, the bowels function regularly, with Dr. King's New Life Pills. Smoothly yet positively they produce results that cleanse the system and make the liver and bowels respond to the demands of a strong, healthy body. Still 25c.—at all druggists. Try them tonight.

PLANS TO GIVE EACH CHURCH AN AREA

A definite plan for a house to house canvass in Santa Ana for the Near East Relief plan has been announced by Rev. A. T. O'Rear, campaign manager for Orange County. The city is to be divided off into districts and each district will be assigned to a church.

Sunday morning the campaign will open with the taking of subscriptions in each of the Santa Ana churches. Committees to do the canvassing for its district will be named by each church. Monday evening Rev. O'Rear will meet with these committees.

Attorney S. M. Davis has been appointed as chairman of the Four Minute Men for speaking at the theaters next week.

The house to house canvass is to be made between Feb. 15 and 22.

Yellow Mustard for Sore Throat, Tonsillitis

Old fashioned remedies are often the best. Yellow Mustard, in the form of plaster or poultice, has been used for generations for soreness, inflammations, congestions and swellings with most excellent results but—it blistered.

Heat eases pain and Begy's Mustardine made of pure yellow mustard, together with other pain relieving ingredients is just as hot, but quicker, cleaner, and more effective and cannot blister.

When your throat is sore, when you have pleurisy, bronchitis or a pain-shooting chest cold, you can get speedy and lasting relief with this most effective preparation because heat eases pain—30 and 60 cents at druggists' or by mail, S. C. Wells & Co., LeRoy, N. Y.

PRESIDENTIAL HOPES IN HAND OF FRIENDS

CHICAGO, Feb. 6.—Attorney General Palmer is "in the hands of his friends," as a presidential candidate. Following his announcement to this effect here, his Chicago friends were prepared today to launch an earnest campaign.

"There is plenty of time to talk

politics after we polish off the profiteer and get rid of undesirable aliens," Palmer said. "I'm not a good hat thrower, but my friends are becoming more insistent every day. I am willing to see the Republicans monopolize the opening field and leave the rest to my friends when the race is ripe."

Palmer before leaving for Kansas City reiterated his belief that the H. C. L. has been stemmed.

Better see our brand new modern house on easy terms before you buy.

ALCOHOL AND FLU

The complaint of some doctors that they find difficulty in getting prescriptions filled for whisky to use in influenza and pneumonia cases has been seized on by anti-prohibitionists as another indictment of the dry amendment. It appears that wherever such complaints have been made, the authorities are taking measures to facilitate the filling of such prescriptions. There is no evident intention on the part of the law or its administrators to prevent the legitimate use of alcohol for medicinal purposes. There is a good deal to be said on the other side, however, and a good deal is being said. It is pointed out that the big majority of physicians no longer prescribe whisky or brandy for the flu or pneumonia, and, indeed, most of them do not prescribe it regularly for anything. There is much testimony accumulated in the last few years tending to discredit alcohol for any but external use. Dr. Osler, long recognized as the world's leading medical authority, condemned it unequivocally. It has been frowned on, moreover, by the American Medical Association, and for some time previous to the coming of national prohibition had been practically eliminated from the American "medical media" as recognized by the medical and pharmaceutical professions. If there are many drug stores found now without whisky, it is largely because the medical demand for it has been decreasing so of late that they have not been sufficiently interested to order a new supply when the old was exhausted.

MAKING A RICH COUNTRY POOR

During our enforced war economies the national food administration declared: "The unstirred sugar left in America's cup would meet the needs of the world." It is simply a striking, epigrammatic way of saying that Americans are the most wasteful people in the world. In spite of all the preaching and all the good resolutions, thrift remains almost an unknown virtue with us. Not that we haven't the greatest number of savings accounts in the world, nor that we haven't the greatest number of dollars per capita in those accounts, of any people in the world. Why shouldn't we have? Aren't we the best paid workers in the world? Does any laborer, anywhere, get, or has any laborer at any time ever got, such sums for his day's work as the American gets and has always got? Comparison is out of the question. But thrift, as it is practiced in other countries, is not known here. We waste food, we waste clothing, we waste fuel, we waste gas, we waste all our natural resources. We scatter everything in the same lavish manner that we waste the "unstirred sugar in our cups." We have devastated our timber lands; we are careless with our natural gas supply and are thoughtless about the waste of coal and iron. The day of reckoning cannot be seen in the offing; it will not come in our span, therefore we should worry! But nations, no less than individuals, are amenable to the old saying that "wasteful waste makes woeful want," and what we waste today may be the portion for which our children will strive vainly tomorrow. Whatever of America we waste now contributes toward making our children's America what Europe is today.

A BILLION-DOLLAR MESSAGE

Charles P. Steinmetz, the noted electrical engineer, says that it is practicable to send a wireless message to Mars—if anybody is willing to spend \$1,000,000,000 for it. So it might be done with the billion that Congress is going to save out of next year's appropriations. It would involve the consolidation of all the electrical power in the country, says Mr. Steinmetz, and the erection of a wireless tower 1000 feet high. It doesn't seem likely, though, that even the United States Congress will undertake any such venture. Congress is rather particular as to what it spends money for just now; and also, Congress is a bit wary of scientific research, after the experience it had with the celebrated Boston-Armenian inventor of "Carabed," who guaranteed to extract limitless energy direct from the ether. Mr. Steinmetz adds that if the

world really wants to communicate with an inhabited planet, it should put the same energy into it that it put into the war. The world, however, with all its protestations of pacifism, is still more interested in war than in scientific progress. Besides, when you spend money for fighting, you at least get some action for your money. Who is going to spend billions for communicating with an inhabited planet when nobody knows whether any other planet is inhabited? And, granting the inhabitants, it's a mighty big assumption that they would notice the signalling, or be able to understand the Morse code if they did notice it, or be able to reply if they understood it. The betting chance on a response might be one in a million.

IN BRITISH POLITICS

The decision of Herbert H. Asquith, former British premier, to stand for election to parliament in the district of Paisley, Scotland, assuming the probability of his winning the seat, brings up for discussion the whole question of the tenure of Lloyd-George's government. Ever since the end of the war it has been common gossip that the George coalition ministry could not long survive, and as each by-election has registered new defeats the end has seemed to be approaching with uncanny certainty. If Asquith gets back to parliament Lloyd-George will face an opposition equipped with a real leader. As if realizing this fact, the wily Welshman is preparing a political program that promises to go far beyond anything that Asquith could stand for, hoping thus, no doubt, to spike the guns of the opposition in advance of the battle. The George program proposes to carry his old-age pension, unemployment and other governmental insurance projects to still greater lengths than he could attain in his early successes along that line. He is to carry the idea to the very limits of Socialism itself. He is further credited with being ready to spring a plan for a system of profit-sharing in industry, instead of the nationalization demanded by the Labor Party. How far he can proceed with the second half of this program in the face of what amounts to a practical Labor majority in Commons cannot be foreseen. But the Labor Party in parliament lacks broad-gauge leadership, and therein lies Lloyd-George's opportunity.

Among popular picture shows, don't overlook the Metropolitan Art Museum in New York, which had an attendance last year of 277,888 persons—most of them from other parts of the country.

Why not stamp on our coins the mystic symbols H-2-O in commemoration of January 17?

Postal Rates

The Post Office Department has been fattening at the expense of the railroads—that is one meaning of the decision arrived at by the Interstate Commerce Commission, fixing a rate schedule for carrying the mails and making it retroactive over a period of two years, or since Congress imposed the space method of accounting on the roads in lieu of the long used weight system. That postal freight should be paid for on a space basis is one of Postmaster General Burleson's ideas on which he has prided himself. Congress authorized it against the protests of the railroad managers. The Commerce Commission has now upheld it as a fair and reasonable arrangement, but has upset Mr. Burleson's theory that the Post Office would save a great amount of money by it. The commission finds that the pay he has required the roads to accept is far below the value of the services rendered. The ruling authority on rates takes the proper ground that, whatever the basis of pay, the compensation must be fair. Mr. Burleson has boasted of a showing of millions saved to his department by the space system. But it appears that the saving has been arbitrarily fixed at a low rate, and that the saving has been turned over to the railroads. The Director General of Railroads will be glad to acknowledge receipt of the cheque, but the Postmaster General will probably draw it with some feeling of anguish.

Lest We Forget

In defense of the Administration it should be remembered that the epistolary warfare which it is waging against Carranza and the anarchy across the Rio Grande that he is permitting and protecting is at no point a departure from the Administration's initial policy in dealing with the alien assailants of American rights, American lives and American honor. The notes with which Washington is now pelting Mexico City, in tone and terms follow the lines of the notes with which Washington pelted Berlin during the Lusitania period. "Shaking its fist first and its finger afterwards" was the practice of the Administration in threatening German pirates, just as it is the practice of the Administration in threatening Mexican bandits. The reason the Germans continued for nearly two years to massacre Americans on the high seas and the reason that the Mexicans continue to make the insult and injury of men and things American a national sport, are not two different reasons. They are one and the same, and that reason is that the German pirates did not believe that the Administration meant what it said, nor do the Mexican bandits.

WATER FOR IRRIGATION

The Time Is Approaching When the Floods Must Be Stored for Use

(From the San Francisco Chronicle)

Present applications to the State Water Commission for permits to divert water from various streams for projects, chiefly irrigation, estimated to cost nearly \$20,000,000 altogether, remind us again that the existing supplies of irrigating water as now regulated will soon all be appropriated. That condition has already been reached approximately in the San Joaquin valley, where extension of irrigation must now consider more economical use of the available stream flow and the utilization of lowland waters, where the level has risen because of former wasteful employment of water above.

It has not yet been reached in the Sacramento valley, which is both less in area and supplied with larger mountain streams than the San Joaquin. In Southern California the state of complete utilization of the usual stream flow was reached years ago, so long since that for a couple of decades development has rested on the tapping of swamp land supplies and strict avoidance of waste.

All this points unerringly to the conclusion that having made the most of the streams as they run in their ordinary way we will have to save for use the extraordinary flows that follow winter rains and springtime snow melting. The normal volume of the streams is insufficient to irrigate the lands we want to put to better use than dry-farming. It is impossible to divert and employ the spring floods as they flow to waste in the sea. We must, therefore, impound them in the mountains, to be let down for use when and where needed.

It is admitted that any comprehensive plan for the storage and complete use of the California mountain run-off will run into many, many millions. It is, therefore, a matter for Federal financing. Such a proposal is not an attempt to make the Nation pay for a benefit to a single state. There is no reason why, if the work is done on sound principles and not too far in advance of the need, the lands benefited should not be able to pay back every penny to the Government. The proposal is, then, merely one that the Government, which is alone able to advance the money for such an undertaking, should play the part of financier. And a Government that has arrogated to itself the authority to tell us how and under what conditions we may use the public lands and waters that of right are ours ought to be willing to make that return.

We are reaching the stage in the West when we must not be frightened at the magnitude of these vast irrigation necessities. Let us remember that the ancient inhabitants of Mesopotamia and Egypt, with none of our steam shovels, attacked and conquered irrigation projects beside which anything we moderns have done is puny indeed. At a time so remote that we are not sure now what people then lived there the inhabitants of Mesopotamia were confronted with a condition like unto that now rising before California irrigators. By man power alone they built a system of dams and canals so vast that engineers agree that it must have been able to control and utilize in irrigation the entire flows of the Euphrates and the Tigris, floods and all. The remains of this far-spreading system are still traceable all over the Mesopotamian plain.

Even if these people were able to marshal millions of slaves to the task it would be strange if with our modern machines we could not accomplish at least as much.

Worth While Verses

THE DREAMER.

Be thou a dreamer, tho' the way be long,
And somber shadows cloud the forward path;
Nor lose the gladsome hope and vision fair
Of brighter scenes and happier hours to come.
In each day's stir and strain, oh, live thy best.
Nor spurn the duty that is thine to do;
However lowly, it is service still.
Yet dream thou on, and never close thy sight
To visions of some sweeter, holier time,
When battle cries shall change to songs of joy
As hatreds vanish that embitter all,
While human hearts in every clime and creed
Shall realize at last their brotherhood.

—Abram S. Isaacs.

Mutual Thoughts.
Mrs. Flyhigh—Doesn't Mrs. Owens look radiant? She must be thinking of her new gown.
Mr. Flyhigh—Yes, and do you observe how wretched her husband looks? He is evidently thinking of it, too.—Boston Transcript.

Yuba Tractors are efficient.

Claudia propped her elbows on the seawall and gazed entrancedly over the bay to where the great dreadnaughts loomed like grim battle-mented islets.
"The lams!" she breathed.—London Punch.

Yuba Tractors work every day.

has meant only a heartache in after years to those privileged for just a little time to gather 'round that board. There are bedsteads where helpless little lives waited their tiny terrors in their newborn nights and found the softest pillow in this universe—a mother's arm. And on those same beds, tired souls have laid them down and breathed a sigh, and come to know the peace of God which passes human understanding. There are pictures which have hung on homely walls so long, seen so many scenes of happiness or hours of grief and anguish, that they are dim of map and glass with memory. And there are countless little worthless trinkets, each one standing for a milestone in some life, that have remained to see the giver and gifted reach the final milestone of them all and lie in dreamless slumber underneath it. Cheap and tawdry and worthless these things appear as they are bartered before a thoughtless crowd and disposed of for a pittance. And yet pitifully hard-earned money bit by bit bought the crazy collection of pots and pans and kettles. The blood of a woman's fingers lies upon those quilts and counterpanes and is woven in the braidings of those old rag rugs. It was a great moment back over the years, when many of these articles of furniture were purchased. Labors of love, possessions of a life-time, all that remains to show for the world-old struggle of a man and a woman, are going, going, gone! And when the auction is over, when the wagons have driven away with their weird loads and the crowd has dispersed, when the yard is cleared at last excepting for the absolutely worthless clutter which a bonfire will soon obliterate, many is the executor or the court official who has closed the doors and blinds of the gutted home and gone away with the resultant money burning in his palm as the thirty pieces of silver burned in the hand of Judas on the evening of the day he sold his Lord.

LOUIS NORDLINGER DIES AT AGE OF 54

LOS ANGELES, Feb. 6.—Louis Nordlinger, 54, for fifteen years an officer of the mercantile house of Klein-Norton, 253 South Los Angeles street, died at the Wesley Apartments, 1500 West Seventh street, Wednesday, after a short illness.

Mr. Nordlinger was prominent in business, athletic and fraternal affairs.

He was a charter member of the old Chesterfield Club of this city, and was active in Elksdom.

Mr. Nordlinger is survived by the widow, Mrs. Esther Nordlinger, a son, Stephen, and a daughter, Miss Aimee Nordlinger. He was a cousin of Louis and Mel Nordlinger, Los Angeles jewelers.

The funeral was held in this city this morning.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisurated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisurated magnesia which you can obtain from practically any drugist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little bisurated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisurated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

—Adv.

THE CHEERFUL CHERUB

Eyes are strange and lovely things.
They see so far to moon and star.
They speak our thoughts more true than words,
And yet just think how small they are.

For Good Measure

By the Editor

TALENT OF SUCCESS

The talent of success is nothing more than doing what you can well; and doing whatever you do, without thought of fame.

—Henry Wadsworth Longfellow.

In this column, yesterday, something was said about the products of Vermont including men and women. Have you ever met William Dudley Pelley of Vermont? He's a new arrival, literally speaking, and if you haven't made his acquaintance better do so.

In the delayed double number of Pictorial Review, Mr. Pelley has a story entitled "The Auctioneer," in which there is a delightful bit of characteristic writing. It suggests the question, "What do you see in the things and people 'round about you, over and above or under and beneath their physical or obvious aspects?"

"A primrose by the river's brim,
"A yellow primrose was to him,
"And it was nothing more."

Is that the way you see things? The only way? What do you see in an auction?

Well, here is what William Dudley Pelley sees:

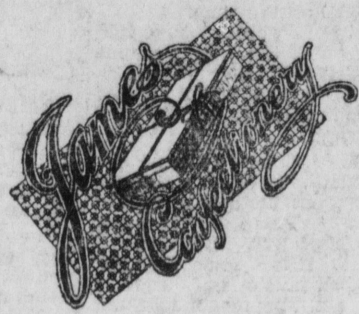

Now, there is ever an atmosphere of pathetic tragedy about a country auction. With gaming blood and bagatelle the sanctity of a home is outraged and obliterated. The thousand little furnishings which give individuality to each human habitation are scattered to the winds of heaven. It is a drama that the City never knows and can not appreciate.

The day comes for the sale, as the day came for the Merritt auction. Rooms that through the vicissitudes of the years have meant Alsatia for life-weary souls—the home up amid the Green Mountains of Vermont—the only place left to retreat when all other places of earth have disappointed them, are entered rudely and attacked with barbaric spoliation. The outraged household spills its shabby contents into the yard before the door. Horses and rigs without number are tied along the fences and roadway outside; morbidly-curious neighbors and strangers gather around.

The auctioneer mounts his block with repartee which he mistakenly imagines is funny—and the sale begins.

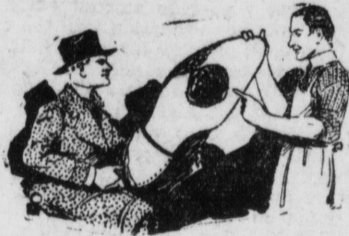

The Sale:
There are chairs which have creaked by green birch fires in many feathery twilights, keeping time with a woman's lullaby that soothed deep in the dark. There are tables with toy-scarred limbs which have supported stumbling baby steps—on which many a meal has been served, the memory of which

LET US ECONOMIZE

—We believe it is the duty of all citizens to practice economy and thus help in bringing down the extraordinary prices on necessities. Economy does not mean going without things we need. It means doing with a little less and saving a part of our income.

—We believe it is our duty to do business on as small a margin of profit as possible. It simply means selling a greater volume of goods and giving each customer his money's worth. That's all there is to economy—just getting your money's worth when you spend a dollar.

—Another way of economizing is to buy in quantity and thus get a lower price. That's the way we buy. That's the reason we can sell the high quality merchandise we do at such low prices.

—We sell thousands of things that are needed constantly in the home and on each article we always endeavor to offer an opportunity to save at least a few cents. Visit our Economy Basement.

Cosy Dinner Party

Mrs. J. A. Turner was the genial
hostess last evening at a delightfully
informal dinner party, guests besides
those in the home being Mr. and
Mrs. Roy Skiles, who were invited
to meet the eastern visitors.

Mrs. Turner has as her house-
guests her sister, Mrs. J. P. Jack-
son of Kansas City, her brother, R.
D. Rucker of Sturgeon, Mo., and Mrs.
R. L. Porter of St. Louis, who was
an overnight visitor.

After the appetizing meal was en-
joyed, the evening hours sped rapid-
ly away with reminiscences of old
Missouri.

Country Club Dance.

Although Mrs. L. L. Carden was
unable at the last moment to as-
sume her duties as hostess at the
Country Club dance last evening,
Mrs. J. C. Metzgar when called upon
arose to the emergency and suc-
ceeded in making the evening's entertain-
ment a marked success.

Chapman's orchestra furnished
plenty of "jazz" music for the jolly
occasion. The decorations were car-
ried out in pink and white, carna-
tions and ferns being used. Punch
and wafers were served as refresh-
ments.

Announces Wedding Date

One of the prettiest pre-nuptial af-
fairs given this season was that given
by Mrs. F. D. Plavan last evening
at her home on South Birch street,
for her daughter, Miss Alma Plavan,
who is to become the bride of Lor-
en J. Mead, the 23rd of this month.

St. Valentine decorations were
featured, red sweet peas and hearts
being used. A pretty cupid stood at
each end of the table and tiny love-
birds holding envelopes containing
the wedding announcement, mark-
ing each place. Small baskets filled
with candy hearts and arrows com-
pleted the effective table arrange-
ment. Ice cream and cake were
served as refreshments, the ice
cream being molded into hearts.

A jolly theater party to see "Poly-
anna" was an enjoyable feature of
the evening's festivities.

Although it has been known by
many friends of Miss Plavan that
her wedding is soon to take
place, the announcement of the ex-
act date was not made until last eve-
ning.

Mr. Mead recently returned from
China, where he has spent four
years in the employ of the Standard
Oil Company in that country. He is
well known in Santa Ana, having
graduated from the local high school.
Mr. Mead intends to return to China
with his bride in April.

Those who enjoyed the pretty af-
fair last evening were Mesdames
Agnes Schooley of Los Angeles,
Pearl Watson, Flake Smith, U. H.
Plavan of Huntington Beach; Misses
Gladys Thomas, Dorothy and Mil-
dred Mead, Emma Fischer, Ida and
Anne Ferguson, Ruth Richards,
Anne Robinson, Ruth Armstrong and
the honor guest and her mother,
Miss Plavan and Mrs. F. D. Plavan.

Music Section to Meet

The Music Section of the Ebell
Society will hold its regular meet-
ing next Monday at the home of Mrs.
A. J. Padgham, 208 East Ninth
street. Mrs. Graham Putnam of Los
Angeles, a pupil of McDowell and
president of the McDowell Club, will
give a splendid McDowell program.
It is hoped that the meeting will be
well attended.

Floyd Geyer to Wed

Westlake M. E. church, Los An-
geles, will furnish the setting for the
marriage of Miss Mildred Kennedy
and Floyd Geyer on the evening of
February 10. The ceremony is to be
performed by Rev. D. F. Howe, for-
mer pastor of the church, assisted
by Rev. Thomas O. Grieves, present
pastor.

Miss Louise Phelan is to be maid
of honor and Mrs. Alfred Thiele ma-
tron of honor. The bridesmaids will
be Miss Lucile Geyer of Santa Ana,
Miss Dorothy Kennedy and Miss Lu-
Vange Phelan.

Charles Geyer will serve his
brother as best man. The ushers will
be Dr. Alfred Thiele, Wallace Trigg,
Russell Edmonston and Elmer Hor-
ley of Pasadena. Little Almarie
Adams will be flower girl.

Miss Kennedy is the daughter of
Mr. and Mrs. Edwin O. Kennedy of
Los Angeles. Calico is to be the fu-
ture home of the young couple.

The groom is well known here,
where the family resided for some
years. He was in the naval service
during the war and several of his
interesting letters were published in
the Register.

Little Delhi Girl Celebrates

Arlene Webster of Delhi celebrated
her eleventh birthday by entertain-
ing a number of friends at her new
home on Central avenue recently.
The afternoon was spent in playing
games, after which dainty refresh-
ments were served. The table was
artistically decorated, the center-
piece being a pond in which celluloid
ducks floated. Ribbons tied to the
ducks marked the places for the
guests.

Those present were Hilda Koral,

Are you particular about your
eyes? If so you must be particu-
lar about your glasses. Let us
make your glasses and you will
have comfort.

THE LITTLE THINGS

I want to say of the sages and
kings.
That they first began with the
little things.
And after mastering those they
went
With bristling spirit and heart's
intent
To master the big ones, and
master them did—
Success with the big in the
little is hid.

You may aim too high when you
make the start;
There is such a thing as being
too smart;
If you want the prize of the
high desire
You must first warm hands at
the little fire,
And then by nursing and blow-
ing the flame
You will find the road to the
peaks of fame.

Through the little things met
face to face
With a firm-set will and an
earnest grace
We can learn the lesson that
after while
Will help us to chortle and
shout and smile
At the splendid triumph we are
destined to know
In putting the big things over—
it's so.

Minnie Nelson, Laura Nelson, Cruz
Villa, Thelma Gwynn, Bertha Lagier
and Miss Elsie Carter, Arlene's
teacher.

Nevada, Iowa, Luncheon.

Thirty-five members of the Neva-
da, Iowa, club were charmingly en-
tertained by Mrs. O. B. Alderman in
James' Gold room at one-o'clock
luncheon yesterday.

Delicate pink carnations and ferns
were employed in the table decora-
tions, one long banquet table being
used for the occasion.
Many pleasant reminiscences, jol-
ly social chat and the delicious
luncheon made the affair a most
happy one and one long to be re-
membered by those taking part in
the festivities.

Following the luncheon, Mrs. Ald-
erman took her guests to her home
which was gayly decked with pepper
blossoms and calla lilies and a business
meeting was held. A pleasant social
afternoon was then enjoyed. Re-
freshing orange punch was served
by the hostess.

Many of Mrs. Alderman's guests
came from Monrovia, Pasadena,
Long Beach, Los Angeles and Or-
ange county points. Some of them
are tourists spending the winter in
Southern California.

Drama-Music Section to Meet

The Drama-Music Section of the
Ebell Society will hold its first
meeting on Monday with Mrs. John
Cloyes and Mrs. H. E. Wagner at
the home of the latter, 1704 North
Main street.

Entertain Engaged Couple

Mr. and Mrs. J. S. Hill charmingly
entertained yesterday at dinner for
Mr. Hill's brother, Jesse C. Hill, of
Alvarado, Texas, and his fiancée,
Miss Grace Casner of Ramona, San
Diego county, who are to be married
the middle of this month at the home
of Miss Casner's sister in Los An-
geles. Miss Casner has a wide cir-
cle of friends in this vicinity as she
was a teacher in the Tustin schools
for five years.

The table appointments at yester-
day's dinner were particularly dain-
ty, violets, hyacinths and ferns be-
ing pleasantly combined, and the
place cards showing little cupids car-
rying traveling bags.

Music and conversation caused the
afternoon to pass very enjoyably for
those present who were Jesse C. Hill,
Miss Grace Casner, Mr. and Mrs. L.
Hill, Mr. and Mrs. S. M. Hill and
son, Sammie, Jr., of Los Angeles;
Mr. and Mrs. Burt Hill and daugh-
ter, Geraldine, of Whittier, Pope Hill
and the hosts, Mr. and Mrs. J. S.
Hill.

The High School P. T. A.

The High School Parent Teachers'
association held a very profitable
and enjoyable meeting last night in
the music room of the school.

A goodly number of fathers, as
well as mothers, were present and
many new members were added to
the roll.

A key-note of optimism for the fu-
ture of the nation, for this commu-
nity, and for its schools was struck
and sustained in each part of the
program.

After the repeating in unison of
the Lord's Prayer, all sang "Ameri-
ca" to the accompaniment of the
High School orchestra.

Other musical numbers consisted
of a selection by the orchestra, a
cornet solo by James Kelly and a
violin solo by Elizabeth Wright.
Mr. Clayton, vice-principal of the
high school, explained the main fea-
tures of the "Part-time Education
Plan," which will vitally affect not
only the boys and girls from 16 to
18 years of age who must attend
school again for 4 hours a day;
their teachers and those who may
have such young people in their em-
ploy; but also is of the utmost con-
cern to the community and the na-
tion.

Although this law to enforce part-
time education may seem new to
California, this state cannot claim to
be a pioneer in this direction, be-
cause 24 other states already have
a similar law.

Under this plan the present high
school equipment is to be freely us-
ed and every effort will be made to
give individual attention and en-
couragement to these part-time stu-
dents. Teachers especially fitted
by temperament and extra training
along vocational lines will open up
the doors of opportunity to these
young folks who somehow have pre-
viously failed to "connect up" in
school work.

The big idea is not that of forcing
reluctant pupils to undergo added
book learning but to help them to
find their best selves and to make
of each one a law-abiding, law-lov-
ing, and law-defending American citi-
zen.

Several concrete examples of what
Santa Ana might do if she were fully
awake to her civic advantages were
recited by Mr. Gustlin. Other
cities have their civic centers, their
municipal playgrounds, bands, etc.
Santa Ana has been growing so rap-
idly that these community culture
and improvement centers have not

kept pace with her advance along
industrial lines.

However, a great improvement has
been manifested within the last few
years. One evidence of this was
the readiness with which the towns-
people supported the bond issue
when once the need was realized.

The auditorium to seat 1700 peo-
ple will no doubt for some time be
the logical community center, be-
cause it will be the best auditorium
available. Would it not be in har-
mony with the spirit of generosity
and response to the noblest senti-
ments of all the boys and girls, men
and women of Santa Ana to therein
place a pipe-organ, as a memorial
to our heroes from Santa Ana High
school? If everyone contributed, all
could take pride in it as a fitting
testimony of their appreciation of
what it means to live and die for
"real home folks."

Attorney L. A. West gave an in-
spiring talk on the subject "Visions
and Responsibility." One could
scarcely listen to such a speech, ra-
diant with optimism, for the future
of the United States and the world,
and remain down cast about the
High Cost of Living or any of the
problems that seem so large as one
goes through the upheaval of read-
justment from an immense world
war.

Mr. West said in part that the past
150 years have witnessed the great-
est steps forward since God said
"Let there be light." The United
States has led all other nations in
this upward trend.

The Declaration of Independence,
the Constitution and the Emancipa-
tion Proclamation are of the earth's
six great human documents.

The 18th Amendment to the Con-
stitution which prohibits the sale
and manufacture of liquor has been
a blessing beyond the knowledge of
the average person. Those who in
the court room see the sordidness
of life have noted a decided falling
off of crime since the adoption of
this amendment.

Everyone should have a vision of
the brightness of the coming years
under the League of Nations and the
United States should in the future
excel ancient Greece in art, litera-
ture, music and general culture.

After the program the members
adjourned to the hall to partake of
light refreshments and to enjoy a so-
cial half-hour in getting better ac-
quainted.

Pleasant W. R. C. Meeting

The regular meeting of the Wo-
man's Relief Corps, with Mrs. Sarah
Brown presiding, met in G. A. R.
hall. A good attendance of mem-
bers and officers were present.

One visitor, Mrs. Packard of Los
Angeles, a former member of this
corps was present and made a few
very pleasing remarks.

Two members were added to the
order by transfer, four new applica-
tions received, thirty-one visits to
the sick and one death reported.

Mr. Maryatt, Commander of the G.
A. R. Post, No. 17, was present and
extended an invitation to the ladies
of the W. R. C. and the ladies of
the Circle, to an oyster dinner fur-
nished by the Comrades at G. A. R.
Hall, Feb. 12th.

Friday, Feb. 12, the corps will have
a patriotic colonial entertainment,
and tea, everyone to come dressed
in colonial style, and have a good
time.

NOTICE TO PUBLIC

The city health department will
henceforth strictly enforce the rule
under which householders, whose
garbage is taken away by the city,
must have garbage cans WITH
COVERS. Garbage cans must be
kept clean by washing.

W. W. CHANDLER,
Sanitary Inspector.

FOR LUMBAGO

Try Musterole. See How
Quickly It Relieves

You just rub Musterole in briskly, and
usually the pain is gone—a delicious,
soothing comfort comes to take its place.
Musterole is a clean, white ointment,
made with oil of mustard. Use it instead
of mustard plaster. Will not blister.
Many doctors and nurses use Musterole
and recommend it to their patients.
They will gladly tell you what relief
it gives from sore throat, bronchitis,
croup, stiff neck, asthma, neuralgia,
congestion, pleurisy, rheumatism, lum-
bago, pains and aches of the back or
joints, sprains, sore muscles, bruises,
chilblains, frosted feet, colds of the
chest. Always dependable.
30 and 60¢ jars; hospital size \$2.50.

WILL NOT BLISTER

—our duty regarding prices

—Every retail dealer, whether he is selling groceries,
meat, hardware, clothes, or what-not, should realize
that it is now his duty to cut his margin of profit down
to the lowest minimum.

—We have gladly accepted our share of the respon-
sibility in helping to keep clothing prices down.

—It is our first duty to provide clothing that you
can depend upon for quality and wearability and then
to sell them with the idea of giving you the greatest
value return for every dollar.

—We do this by selling merchandise of well known
quality—merchandise that is guaranteed by the mak-
ers to us. We pass this guarantee along to you and
thus the merchandise we sell is doubly guaranteed
and you are certain of getting your full money's
worth.

—In that manner we are giving you the greatest pos-
sible amount of value and good-clothes satisfaction
for the minimum amount of money. We solicit your
co-operation.

NEWS BULLETINS FROM WOMEN'S READY TO WEAR

Gilbert's INC

110 W. FOURTH ST.
SANTA ANA, CALIF.

TAKE ELEVATOR TO SECOND FLOOR

Short Coats For Spring

—Fashion decrees some beautiful models in
Women's and Misses' Coats for Spring. As us-
ual, the snappier modes come this spring from
gay Paris. There are several new materials in
the new garments and the fresh, buoyant styles
carry the spirit of Spring throughout.

—At Gilbert's you will find all these new fea-
tures. You will always find the newer features
at Gilbert's, but this spring more than ever be-
fore you will find the fashion ideas exception-
ally pleasing. The prices on these new spring
coats are quite reasonable, starting at—

\$25.00

BLOUSES

—The newest Spring Blouses in all their dainty beauty are now shown in
Gilbert's Blouse Shop. The line embodies some of the most charming
blouses we have ever had the pleasure of presenting.

—Georgette Crepe, with its sheer transparency, is probably the most pop-
ular material used this spring. Gilbert's popular prices make it easy for
everyone to own at least one. Prices run from \$6.50 up.

—The new Voile Waists are just in. They look so fresh and crisp—and
they are certainly very reasonably priced at from

\$1.75 Up

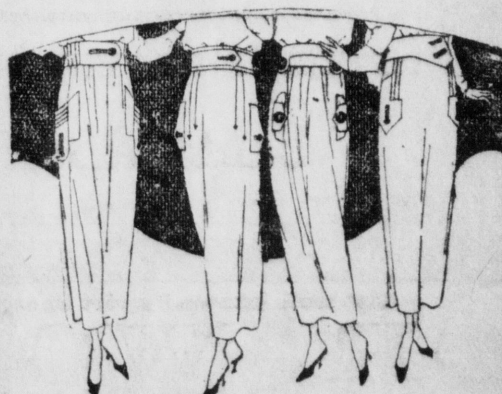

See These On Display

LATE NEWS

—Every day the express and the parcels
post is bringing something fresh and crisp
and NEW to Gilbert's ready to wear de-
partment. The second floor is fairly brist-
ling with the new.

—And remember, not only does Gilbert's
store always offer superior quality in mer-
chandise, but the store offers the best of
service. This store is willing to take any
reasonable trouble to see that each cus-
tomer gets his money's worth. It's no
bother at all to show you these fine new
things. In fact, it's a privilege we take
great pleasure in and we hope you'll come
and ask us to show you everything that's
new. That's the spirit at Gilbert's.

—Gilbert's skirts this spring are getting to be the talk of Santa Ana. And
there's a reason. First, the quality in this line is the very best. Second,
the assortment is the largest you are likely to find. Third, the prices are
the most reasonable we have ever seen on such garments. The prices
start at

\$12.50

—The range of patterns is very wide. The demand for separate skirts will
be great this season. A coat, a blouse and a new skirt will be quite the
thing this spring. You'll

APARTMENT SITE BOUGHT BY L. A. WOMAN

FULLERTON, Feb. 6.—One of the choicest apartment house sites in the city has been purchased by Mrs. Braham, of Los Angeles. The property fronts on three streets, Chapman, Pomona and Whiting, opposite the new Christian Science church. On one part of the purchase are two small houses. The property was owned for a number of years by William Thomas Garr and has been much sought after. The Masons tried to purchase it at one time for the site of their Masonic Temple but the deal finally fell through. Mrs. Braham has been engaged in the hotel business in Los Angeles for several years, but recently sold her property there and in looking for a location for a good investment could find no better place than Fullerton. It is her intention to improve the property in the near future either with a family hotel or apartment houses.

Graham Roscoe has started a crew of men at work clearing a lot he recently purchased on West Santa Fe avenue, across the alley from the Fullerton hotel, preparatory to the erection of a building to be used as a blacksmith shop for Perry & Berdill, who are compelled to move from their present quarters. Bert Reno, proprietor of the Fullerton hotel, is using the lot for a chicken yard and claims the right of possession. Reno ordered the men off the property, but after some controversy they returned to the job.

Mrs. Ellen Burcher of Brea, has purchased the residence of F. P. Wood on East Brookdale, which she will occupy as a home. Mr. Wood purchased the property last fall as a place of residence during the construction of his handsome new \$8,000 residence on West Commonwealth which is expected to be completed in about six weeks when he will give Mrs. Burcher possession of the place he sold her.

Lawrence Schenck has sold his place at 321 West Amerigo to L. E. Grainger of Olinda. Mr. Grainger expects to make his home there immediately.

L. C. Howe has purchased F. M. Smith's place at 418 West Wilshire and F. M. Smith has purchased the J. R. Graber place consisting of half an acre west of Commonwealth. J. H. Graber has purchased the T. P. Rinehart place southeast corner of Amerigo and Lawrence.

Jesse Hardy has purchased one of the houses under construction by the Fullerton Home Builders which he will occupy as a home just as soon as the building is completed. The company has seven houses under construction and finds no trouble in disposing of them.

Harry Hoben has resigned his position with the Stein & Fassel store, after being connected with the firm at Yorba Linda for six years, and will engage in the real estate business there.

W. A. Moore, Fullerton agent for the Standard Oil company, has purchased the handsome 9 room residence of F. I. Rader at the corner of Amerigo and Harvard avenues which he will occupy as a home.

Oscar Brunet of Placentia has purchased a 10 acre six year old Valencia grove of Albert Peter of Anaheim for the sum of \$27,000. The grove is located on West Broadway and Mr. Brunet will make considerable improvements on the place for his son, who is on his way from Canada.

ROUND-ABOUT ORANGE COUNTY

By the Register's Roundabout

In my Preface article I closed with these words: "Opportunity, with benign smile, beckons us ever onward."

Using the word "Opportunity," recalled to mind a discussion that took place in the newspapers some years ago, when Edmund J. James, then president of the University of Illinois, in a baccalaureate address, spoke of John J. Ingalls' famous poem, "Opportunity," saying: "I do not believe that there is an equal number of beautiful lines in the English language, which contain more unmitigated nonsense than Ingalls' 'Opportunity.'" It was President James' opinion that opportunities come in a never-ending procession.

The following are the lines of Ingalls' poem:
"Master of human destinies am I!
Fame, love and fortune on my footsteps wait.
Cities and fields I walk; I penetrate
Deserts and seas remote, and passing by
Hovel and mart, and palace—soon or late
I knock unbidden once at every gate.
If sleeping, wake—if feasting, rise before
I turn away. It is the hour of fate,
And they who follow me reach every state.
Mortals desire, and conquer every foe
Save Death; but those who doubt or hesitate,
Condemned to failure, penury and woe,
Seek me in vain, and uselessly implore;
I answer not, and I return no more."

In the discussion in the press that followed President James' attack on the Ingalls poem, Mr. Dooley, a humorous writer in a Chicago newspaper, wrote as follows:

"Opportunity knocks at every man's door. On some men's doors it hammers 'till it breaks down the door, and then it goes in, and afterward it works for him as a night watchman. On other men's doors it knocks and runs away, and on the doors of some men it knocks and when they come out, it hits them over the head with an ax. But every man has an opportunity."

As I look over Orange County, the garden spot of all the Southland, with opportunities unfolding everywhere like the fragrant petals of a rose unfolding its velvet bosom to the sunny skies, however much I admire the beautiful lines of John J. Ingalls, I must agree with Edmund James and the humorous Mr. Dooley, that opportunities come in a "never-ending procession."

Will it be necessary for Opportunity to hit some of us on the head with an ax to know that opportunities are everywhere in Orange County?

Adjacent to Brea. Citrus growing has not been an important part in the development of this section of Orange county, but it is beginning to take hold along this line. A number of orchards have been started and homes built on the tracts. Oil companies have excavated and is being used as a reservoir. In this way he has a gravity system of irrigation. Mr. Linebarger has been in California for nearly forty years, and in Orange county over twenty years. He has had a part in the building of Orange county, and was supervisor from the third district for ten years.

Thomas Davidson, on South Pomona avenue, consisting of twenty acres or more, has been divided and sold within the last two years. C. R. Merrifield owns the old home place, with 15 acres, half in lemons and half in oranges, which was Dr. Davidson's home before moving to Hollywood. However, the doctor still has interests in this section, and is vice-president of the La Habra Valley Bank at Brea. Mr. Merrifield, the present owner, came from Kentucky, but he, and his good wife, are so delighted with their new home and surroundings that they are interesting boosters for Orange county.

"Being from Kentucky you know how to appreciate good roads," I said.

"That's why I located in Orange county," he replied. "Good roads and its productiveness attracted me. All ranch owners should favor good roads. I know all about bad roads—I'm from Kentucky. Is there anything in the newspaper reports about division, to divide us from the south half of the county?"

"That report was too silly to be true. It would be criminal to divide such a beautiful county as this," I replied.

"I wanted to say that I am absolutely opposed to such a thing. What interests me the most is the Japanese question. I think they should be disfranchised. If we could assimilate them and make Americans out of them, it might be all right. But we can't deport them, anymore than we can deport the negro in the South. I think Senator Phelan makes some very good arguments."

Lemon and Orangeade. John Lee owns five acres of the Dr. Davidson ranch. It is all in Valencia oranges. Mr. and Mrs. Lee are very proud of their ranch, and they ought to be. The trees are nine years old and are coming into full bearing.

"I'm for prohibition, are you?" Mrs. Lee asked me.

"Certainly, I am, Mrs. Lee. I've always thought that way," I replied.

"And prohibition is going to help our orange business; they've got to drink orangeade now," she said.

"I am glad to hear that," I replied.

"I own an orange grove, too, so it is going to help both of us."

Mr. Lee is very much enthused on soil-building and invited me through his orchard and explained the benefits he is already receiving from his efforts.

Across South Pomona boulevard from the Merrifield ranch, J. G. Sargent owns 11 acres, part of which is in the Brea corporation. Mr. Sargent moved last April on this place. For eight years he was engaged in the hardware business at La Habra. They have a beautiful home, a seven room bungalow, 34x50 feet, which was built last summer at a cost of \$6,000. The ranch is lemons and oranges in bearing.

"I am in favor of good roads, but I think we should rest awhile," said Mr. Sargent, in discussing matters in general regarding Orange county.

"It is this way," he continued. "Times are at a high pitch now, and it is always a rule that when anything reaches a high pitch, there is always a turning place. It looks to me as though we should go slow. It takes one dollar now to go as far as forty-seven cents did before the war. We are not suffering for paved roads in Orange county right now. Of course, we cannot stop improving entirely. We have got to keep the essentials going. For instance, here is my pumping plant. I need more water, so I will have to make a new well. I am waiting for the drillers now. But these are essentials."

"How deep will you have to go?" I asked.

Probably 250 feet, and the cost will be over \$2,000," he replied.

"What do you think of the Hoover boom for president? Some think it is a scheme to defeat Johnson in the primaries in California, and the politicians will see to the 'killing of the Hoover boom at the convention,'" I said.

"I'm for Johnson, absolutely," he replied. "I think it is a scheme to defeat him. I'm for Johnson, absolutely!"

Bryan a Wonderful Man. Adjoining the Sargent acreage, D.

the peerless one; that he controls four million votes; that's more than two-thirds of the Democratic vote," I said.

At this the old-time Bryan enthusiasm seemed to kindle anew in Mr. Linebarger, and he said:

"He can get them if he wants them. How enthusiastic I used to be for Mr. Bryan. I used to take his paper, the Commoner. It was gospel to me. Bryan is a wonderful man."

Olinda. The Good Book says: "A city set upon a hill cannot be hid." Olinda has no desire to be hid, neither has she "put her light under a bushel."

She has been giving light and power and heat for more than twenty years. It would be impossible for mathematicians to figure out and give proper credit to Olinda's oil wells, the revolutions of the wheels of locomotives and machinery, the tonnage it has hauled, the heat and light, to say nothing of the prosperity it has brought for the good and comfort of the world. It is from Olinda that the Santa Fe Railway secures its chief supply of fuel.

The Santa Fe agent at Olinda, Mr. Dowe, who has been with the company there for thirteen years, says twenty-five to thirty-five carloads of oil are shipped out of Olinda every day, and that some days forty carloads tanks go out.

"This," he says, "is by no means all of Olinda's supply of oil. Large supplies are taken out in pipe lines by other companies operating here."

E. L. Doheny, whose name will always be associated with the history of oil production in California, is the man who, with foresight and wisdom could see golden opportunities of wealth and fame locked in hidden vaults along the rugged foothills of a seemingly barren waste of shrubs and stone forced up by some great upheaval in ages past, is responsible for Olinda's fame as an oil center—the oldest and still one of the best in Orange county and Southern California. Impressed with the indications that oil could be found along the foothills, he secured an option to purchase the land from the Santa Fe to operate the territory in partnership. In February, 1897, the first well was drilled to a depth of 700 feet and completed in a few months. Its production was 50 barrels a day. Other wells were drilled that brought in 150 barrels a day. There are now more than 200 wells all in operation, and the first wells are still being operated with large profits. More wells are being drilled. Besides the Petroleum Development Company, four other companies are operating.

Olinda has not aspired to a place in town building. She has contented herself to follow the path of industrial activity, letting her wealth spread out over Orange county to help build other towns and communities. Homes have been built, and the population is estimated at 1000. Located at the entrance of Carbon Canyon, not far from the boundary line of Orange and Los Angeles counties, Olinda has a magnificent view from the foothills to the sea.

The educational welfare of the children is properly cared for in fine schools employing seven teachers, with an enrollment of 250.

"Just What I Wanted an Olive Drab Suit"

We've got 'em men—not more than a dozen, but all sizes, 20 oz.—can you imagine it now days? Let us tell you about them. An all wool, heavy weight, Olive Drab Serge, and they're her to sell at \$40. The coat is a 3-button sack model and the trousers are not skimpy. Olive drab wears well and cleans easily. Always a good looking suit. The best color for office, street, machine or business.

Do you wear suspenders? We are featuring a very desirable suspender at 50c. Good durable elastic—medium weight and leather ends easily worth more.

Fine Mercerized

We know you wear sox—no need to ask you. Here's a line of hose we'll sell you at 35c a pair or 3 pairs for \$1. A fine mercerized cotton hose made with a double toe and heel—a good wearing sox. We have them in black, navy, cordovan, marine, slate and white.

See our front case of Knitted Neckwear—priced from \$1.50 to \$5. Knitted ties now have the first call in new neckwear—you'll see more knitted ties worn this summer than ever before. Better get yours now.

"The Boys' Shop"

Folks—do not fail to make "Our Boys' Shop" your boy's headquarters for good clothes. The "Boys' Shop" is really a store within a store. We carry everything for the boys in the way of good clothes and furnishings. We can dress the little fellow of two or three years just as easily as his big brother of 12 or 14.

Ask a boy where he buys his clothes and most of them will answer at Vander-mast's "Boys' Shop" of course.

Boys' Suits Up To \$20.00.

ANNOUNCING A NEW DEPARTMENT

It has always been the policy of this firm to render the highest possible service to the public. In seeking about for a better means of extending that service we have concluded that Santa Ana needs an adequate electric motor supply house. With that thought in mind we have secured the buildings at 117 and 119 East Third Street where we are remodeling and installing a motor supply house the like of which Orange County has never seen.

In this new department we are selling General Electric Motors of every size and for all purposes.

We will buy and sell used motors of every type and make and will have electric motors to rent.

In case you have a motor burned out we will have one to lend you while your old one is being re-wound.

In fact, this electric motor department will cover every need that may arise in the business of the man who uses motors and it will be a service of much value to the public, because we are going to MAKE it that kind of a service.

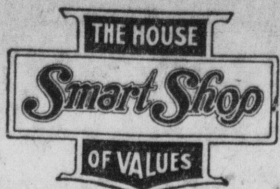

We employ a score of electricians, each of whom is highly trained in his particular line. In that way we have a specialist to send out with each job and it goes without saying that the job is done right. If you also believe in that kind of service we will appreciate your co-operation and your patronage.

Very truly yours,

J. G. ROBERTSON

GETTING READY TO RAISE FUND, W. C. T. U.

The W. C. T. U. organizations of the county are preparing to raise what is known among them as the Jubilee Fund. At a meeting of the executive of the W. C. T. U. of the county yesterday the purposes of the fund were explained.

The meeting yesterday was at the Congregational church. Every union of the county was represented. The president, Mrs. L. C. Yeoman, of Anaheim, presided.

The meeting opened at 10 o'clock, with Mrs. A. M. McDermott leading a very appropriate devotional service, using the subject of "Morning." In keeping with the county motto, "In the morning sow thy seed, and in the evening withhold not thine hand, for thou knowest not whether shall prosper either this or that, or whether they both shall be alike good."—Eccl. 11-6.

As the state president, Mrs. Stella B. Irvine, has been very ill, a prayer was offered in her behalf and all joined in singing "He Leadeth Me." A telephone message of love and sympathy was sent to Mrs. Irvine at her home in Riverside.

The morning session was occupied in hearing reports and learning what all unions were doing in raising jubilee funds. The unions are all doing good work in raising the jubilee funds. If an effort is made to get the money, the response is ready. There is so much work to be done in keeping up the home for soldiers and sailors in San Diego. This institution is doing a wonderful work for boys who do not have the home life. It is mothered by a loving woman, who has the interest of the boys at heart and many boys through it have been brought to lead cleaner and better lives.

The Frances Willard Home for Girls, which is located in Los Angeles, is also proving to be a great help in aiding the police force in giving justice to girls who have been sinners against, and the home for aged women, located in Highland Park, is doing a good work. A great many things are being done to bring prohibition to the whole world. So money received for this jubilee fund will do good wherever it is used.

Mrs. Sarah Brown of Tustin, superintendent of Parliamentary Usage, gave a very interesting parliamentary drill, in which all present took part.

The morning session adjourned at 12:30 for lunch, which was served in the church basement by the ladies of the Congregational church.

At 1:45, the president called the meeting to order and Miss Nellie Winslow led the devotional service. Superintendents gave short reports of their departments. Mrs. Estella Harper and Mrs. Yeoman sang "Work for Enforcement Where You Are."

Mrs. Anna Hill announced a mothers' meeting at 1102 Spurgeon street. All the women who can go in the forenoon are requested to bring a lunch and go prepared to sew for the infants' box. A good program will be given in the afternoon and will be in charge of Mrs. John Oliver.

Mrs. Yeoman, the county president, who had the privilege of attending the national convention held in St. Louis November 14-21, gave a most complete and interesting report of her trip and of the convention, which was considered one of the greatest conventions of women ever held in the history of the W. C. T. U. Mrs. Yeoman possesses a good clear voice and gave the report in a pleasing manner. A rising vote of thanks was given her.

The executive was very greatly favored by the presence of Mrs. Emma Cash-Clapp, who organized the Orange County W. C. T. U. and who was very cleverly introduced by another crusader of the work in the early history of the county, Mrs. Elizabeth Mills.

An hour of jubilation was held on the prohibition victory that has swept the United States. Mrs. Clapp told of the crusade that she had engaged in when the women took it in their hands to help rid the country of the saloons that were ruining their sons, and of the success of ridding the town in which she lived of all the saloons during this crusade. At the close of this story, Mrs. T. A. Winbigler, with Mrs. Haines at the piano, sang several hymns sung by the crusaders.

The president read a telegram of greeting from the state president, Mrs. Stella B. Irvine. Mrs. Elizabeth Mills, also a crusader, was introduced and spoke on the crusade days and of the joy she experiences in living to see the victory, but in Mrs. Mills words, "The work of the W. C. T. U. has just begun."

A fitting closing of this part of the program was the singing of a solo, "Victory," by Mrs. T. A. Winbigler, accompanied by Mrs. Haines.

An invitation from Fullerton to hold the annual convention at that place the last week in April was accepted.

FLU BRINGS REVIVAL AT VISALIA TO END

With influenza making headway in the San Joaquin valley, and the an being placed on public gatherings, a revival that was in progress at Visalia was brought to an end, and the evangelist, Rev. Paul E. Wright, returned to his home here this week. Rev. Wright was conducting the meetings for the Christian church of Visalia.

The city health department will henceforth strictly enforce the rule under which householders, whose garbage is taken away by the city, must have garbage cans WITH COVERS. Garbage cans must be kept clean by washing.

W. W. CHANDLER, Sanitary Inspector.

DANCING

Friday evenings, Chapman's orchestra, Hebard's hall, Third and Spurgeon streets.
Special—Kellogg Bros, Chapman & Bartlett, the "bundle of harmony." Hear them at Shaffer's Music Store.

Yesterday the Santa Ana Valley Irrigation Company directors organized for the year by electing A. N. Saxton president, C. O. E. Mansur, secretary, and W. A. Plumb, superintendent. There was no quorum at the annual meeting of the stockholders, and the five directors, A. N. Saxton, Geo. Dierker, A. G. Finley, H. J. Plumb and W. A. Greenleaf, held over.

Recently Dierker and Finley presented their resignations, but efforts have been made to get them to continue their services on the board. A formal motion was passed by the other directors of the board asking them to remain on the board.

At the monthly meeting of the board Superintendent Ralph presented his report for January as follows:

"Work done during the past month is as follows:

"On petition of H. M. Lee et al. to pipe a portion of Ditch 'B' have laid 276 feet of 18-inch pipe and replaced two gates, using two 18-inch backup gates, thus completing said petition.

"On petition of F. E. McCarter et al. have laid 50 feet of 12-inch pipe and constructed one two-way measuring gate, using one 12-inch iron shut-off gate, thus completing said petition.

"On petition of H. A. Brown and Ransom Reid to raise their gates, have done work as ordered.

"Have put in new stringers and flooring at overshoot No. 2 on the main canal.

"Have made 4,406 feet of 12-inch, 3,710 feet of 16-inch, 1,088 feet of 18-inch, and 578 feet of 30-inch cement pipe.

"Have received and stored two cars Victorville cement and have also received 70 sacks of Riverside cement.

"Other details of the work, such as covering bridges and cleaning of ditches have been attended to."

To Lease Reservoir.
The president, A. N. Saxton, and the secretary, C. O. E. Mansur, were instructed to lease to A. C. Fletcher the land at the reservoir site for two years, on the same terms as the lease which he now holds, reserving the oil rights.

The price of water on unstocked land was placed at 60 cents per hour.

The following petitions were referred to the Zanja Committee and Superintendent, with power to act: A petition from D. A. Bear to raise his gate; from B. B. Johnson to change his gate, and from A. O. Dominguez for a new one.

A warrant was ordered drawn for \$300 in favor of the Tri-County Reclamation Commission for our assessment of 1920.

A petition from F. S. Arundell for a new gate was referred to the Zanja Committee and the Superintendent, with power to act.

As per notice of Assessment No. 72, levied October 25, 1919, the secretary C. O. E. Mansur, offered for sale the stock which was delinquent on account of failure to pay said Assessment No. 72.

No bidders offered the amount of assessments, costs, and charges due for any of the following stock and it was therefore bid in by the Santa Ana Valley Irrigation Company through H. J. Plumb, at the amount of assessments, costs and charges, to-wit:

Wm. Bierwagon 2.50 shares; C. B. Campbell .25 shares; A. Crawshaw .47 shares; L. M. Fernald .20 shares; L. M. Fernald .20 shares; J. H. Gray and wife .63 shares; Thos. A. Gray .20 shares; J. A. Howard .20 shares; W. H. Keiser .33 shares; D. W. Keiser .25 shares; N. R. Lemon .20 shares; J. B. Lockett .70 shares; G. C. Morrow 3.00 shares; Mrs. E. Pfeiffer .20 shares; Mrs. E. Pfeiffer .40 shares; J. L. Rife .60 shares; L. C. Scott .20 shares; Roy I. Smith .18 shares; Ellen M. Teel .40 shares.

A verbal petition was received from A. R. Morris and O. B. Newcom to pipe a portion of Ditch "C" and was granted when petitioners pay twenty-five cents per foot for construction of pipe line and furnish the necessary right of way.

The question of an extra gate for A. R. Morris was referred to the Zanja committee and superintendent with power to act.

The petition of Wm. Ellison and others for a pipe line on Irvine Boulevard was granted, the petitioners to furnish the necessary right of way and pay one-half the cost of the pipe line and all the cost of gates.

A petition from John H. Veeh to pipe a portion of Ditch "F" was referred to the Zanja committee.

Action on Petitions.
A verbal petition was received from W. J. Richter et al. to pipe a portion of ditch "H" and granted when the interested parties furnish the necessary right of way and pay 22½ cents per foot for the 16-inch pipe laid and 25 cents per foot for the 24-inch pipe.

D. F. Campbell appeared before the board in reference to traveling of road south from the pipe yard and the matter was referred to the president and superintendent.

The finance committee's report approving bills as follows: Expense account, \$4,764.11, and construction account \$1,704.16, was read and approved and warrants were ordered.

LACK OF REST
worry, over-work or imperfect nourishment, all in a measure contribute to and are the beginnings of nervous prostration.

SCOTT'S EMULSION
is a decided help to those who are nervous, in that it provides an easily assimilated food that quickly builds up the general health by nourishing the whole body. Give less attention to worry; enjoy regular rest and sleep and take Scott's Emulsion regularly after meals. Scott's never fails to nourish and strengthen.

The exclusive grade of cod-liver oil used in Scott's Emulsion is the famous "S. & B. Process," made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability, unsurpassed.

Scott & Bowne, Bloomfield, N. J.

drawn on the proper funds for the several amounts.

The Zanja committee's report was read, adopted and ordered filed, and work was ordered done as per the recommendations of the committee as follows:

"On petition of Wm. Knuth to have his gate raised, we find that there will have to be an extension of the present pipe line down to the gate before it can be raised.

"On the petition of R. F. Dreyer to raise his gate, we recommend that the petition be granted.

"T. J. PLUMB, "Zanja Committee."

The petition of R. F. Dreyer to raise his gate was granted, the petitioner to pay all the cost.

A verbal petition was received from M. C. Bowman et al. to pipe a portion of ditch "U" and granted, the petitioners to furnish the necessary right of way and pay one-half the cost of the pipe line and all the cost of gates.

Ditches as per the following petitions, W. I. S. Hatch et al., E. D. Hayward et al., K. V. Wolff et al., and S. P. Greenleaf et al., were accepted as company ditches.

The question of making a map of the water system was referred to the president, superintendent and the secretary with power to act.

TAKING NO ACTION IN NO-FRAT FIGHT

STANFORD UNIVERSITY, Feb. 6.—No official action will be taken by the alumni of Stanford University with regard to the recent announcement of President Ray Lyman Wilbur that the fraternity and sorority house systems will be abolished as soon as funds are available to construct dormitories for all students. This fact was made known today, following statements made by officers of the Alumni Association, who do not consider the fraternity question to be one on which official action may properly be taken by that organization at this time.

It was learned unofficially, however, that alumnae members of the Pan-Hellenic Society at Stanford who are opposed to the abolition of fraternity and sorority life at the university are seeking to modify, if possible, the housing policy announced by the president.

Among the plans which are now being considered by members of the Pan-Hellenic alumnae is the suggestion that the sorority houses be grouped in one part of the campus, adjacent to Roble Hall, the women's dormitory. If the sorority houses must be abolished, however, it has been suggested that sorority members be permitted to occupy separate wings in the new dormitories, or that adequate facilities be permitted for lodge meetings.

The Real Salesman.

"What!" cried the careful housewife, "you charge me a shilling a pound for these apples?"

"Yes, ma'am," answered the polite grocer, "that is the very lowest price we can sell them for."

"How is it that I can get them from Todd's for eightpence, then?"

"I cannot say, madam. Perhaps Mr. Todd has taken a fancy to you. He is a widower and you are beautiful. Unfortunately I—Yes'm, two pounds? Certainly."—Blighty.

GIRLS! DRAW A

MOIST CLOTH

THROUGH HAIR

Let "Danderine" save your

hair and double

its beauty

Oh, girls, such an abundance of

thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage.

Just moisten a cloth with a little

"Danderine" and carefully draw it

through your hair, taking one small

strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and invigorator as told

DRAINAGE TALK IS TOMORROW MORNING

The question of drainage, which is of vital interest in a number of sections of Orange county, is to be discussed at a meeting to be held tomorrow morning, Saturday, at 10 o'clock, at the ranch owned by W. Dean Johnston, between Garden Grove and Westminster.

Farm Advisor Wahlberg is to conduct a demonstration in drainage at that place and time. Some of the beneficial effects of drainage will be pointed out in a way that can not leave any question as to the value of proper drainage.

Wahlberg has accurate information upon the steps to be taken in organization of a drainage district, and he will be prepared to answer questions of farmers interested in any of the projects now under consideration in Orange county.

ANNOUNCEMENT

Having decided to again actively re-enter architectural practice, and in the interest of co-operation and better service, I have associated myself with Mr. J. F. Walker, architect, of Anaheim, and will be pleased to meet my former clients and friends at either our joint office at Anaheim or my office at Santa Ana.

FREDERICK H. ELEY, Architect.

Immanuel Baptist Church Is Soon To Be Dissolved

91 PER CENT NET INCREASE IN RETURNS TO GROWERS

Villa Park Orchards Association Shows Phenomenal Growth in 1919

Showing better than a 100 per cent increase in volume of shipments and net proceeds 91 per cent greater than any previous year in the six years of its life, the Villa Park Orchards Association today is making plans for meeting a further increase of business next year, following the annual meeting held at the packing house at Villa Park yesterday. Packed boxes to the number of 200,960 were shipped, returning gross receipts of \$783,112.09 and gave the growers \$3.42 per packed box.

It was an all day session, with a fine dinner served to members and friends in the packing house by the Ladies Aid of Villa Park, which organization is gaining something of an enviable reputation as caterers for big crowds. The Kozena Bros. enlivened the occasion with catchy banjo music during the serving of the dinner.

The forenoon session was given over to business and the afternoon to addresses by Secretary Barnes of the Fruit Growers Supply Company and Prof. R. S. Valle of the Riverside citrus experiment station, who gave some of the results of recent experimental work and observations and information gained on a recent world tour in the interest of citrus culture.

For the past two years the operations of the association have been under the management of H. D. Nichols and in those two years the record and growth of the organization has been phenomenal.

Enlargement of the packing house has become necessary and the members authorized the purchase of a 6.69 acre tract adjoining the packing house on the north and west, the land being purchased last September by the Board of Directors from S. V. Oharr for the purpose of turning it over to the association if the members wished it.

Purchase of the property was authorized and an addition with basement, to cost about \$5500 was authorized by the meeting. This will place the association in position to take care of its increasing volume of fruit and will offer facilities that will make the handling of the fruit more economical.

Continuation of the two-pool plan also was authorized. Last year was the first year of operation of the two-pool system and it proved so satisfactory that it was decided to continue it.

That the members of the organization have some idea of "stepping out" was evidenced by direction to the board of directors to investigate the cost and advisability of instituting a pre-cooling plant at the packing house. The board will take its time in the investigation and will report at the next meeting of the members, with privilege of calling the members into special session for the consideration of such report should it be that nothing else should develop before the next annual session.

The association now has 136 members and 1152 acres in its district. The district was enlarged to include five groves owned by parties who are now members by vote of the meeting.

1918 Banner Price Year

The association has increased its product from 48,953 packed boxes for the season of 1913-14 to 200,960.

(Continued on page ten)

Kisses, Promised But Not Given, Cost Wooser \$3,627

Millionaire Sunday School Teacher Sued for \$50,000 By Girl

NEW YORK, Feb. 6.—Non-delivery of 13,000,000 promised kisses may have caused Miss Mary Lillian Phipps, wealthy daughter of George N. Phipps, one of the inventors of the typewriter, to sue William Russell Smith, millionaire Sunday school teacher, for \$50,000 in a breach of promise action.

She compromised for \$3,627.

MAY PERMIT JOHNSON TO RETURN TO U. S.

CHICAGO, Feb. 6.—Jack Johnson may be permitted to return to the United States.

District Attorney Charles F. Cline announced after receiving the letter mailed by the former world's champion in Mexico City last week he would enter into negotiations with Johnson.

Johnson faces a sentence of one year and a day in Leavenworth prison for violating the Mann Act. He jumped bonds of \$15,000, following his conviction in 1913.

CANADIAN BUSINESS HAS BIG INCREASE

OTTAWA, Ont., Feb. 6.—Canada did a business of \$1,707,197,390 in the nine-month period of 1919 ending in December, according to figures made public by the government. This represents an increase of \$31,580,565 over the same period of 1918.

Exports of domestic products showed a loss, \$941,845,376 worth of goods being sent out as against \$947,276,365 worth for the previous period. Duty collected on imports for home consumption amounted to \$129,934,039.

FORTY CHICAGOANS COMING ON SPECIAL

PASADENA, Feb. 6.—George M. Reynolds, president of the Continental National Bank of Chicago, will arrive in Pasadena next week with a party of prominent easterners. There will be forty members of his party, which will travel in a special train over the Santa Fe. The party is composed of Chicagoans, prominent in financial, commercial and social life.

MOHAWK STARTS DRILLING FOR OIL AT HEAD OF BAY SOON

This Will Make Fifth Derrick Up on Irvine Company Property

Within a month another oil company, the Conling Mohawk Co., will begin operations for drilling an oil well on property leased from the Irvine Company near the head of Newport Bay.

The Interstate Oil Co. has already finished a derrick on the Irvine ranch. The derrick is within twenty feet of the edge of the road that separates the Irvine ranch from the Newport Heights tract.

The decision of the Mohawk company to drill will result in further trying out oil conditions around Newport Bay. With it, there are now three rigs drilling on the Irvine ranch, with one derrick up and ready to drill and one about to start putting up its derrick.

Two of the companies drilling are in the foothills near Irvine. The Northland is about two miles to the south. The H. K. & T. has been drilling for some time. The third rig that is drilling is that of the Liberty Oil company, near the head of the bay.

Active in Hills

That oil men are turning their attention to the hills east of Santa Ana and in the district lying between Santa Ana and Trabuco canyons is evidenced almost daily by geologists making investigations there.

A group of Santa Ana, Orange, Anaheim and Los Angeles men have made filings on mineral rights on about 4000 acres in that district and negotiations now are in progress with big oil companies for leases on some of the claims owned by Group No. 1.

E. S. Morrow, of this city, who is identified with the first group, yesterday went over the territory with a geologist representing a number of oil companies. The geologist was impressed with the possibilities of developing oil there, but would make no positive declaration. He made copious notes and remarks dropped now and then led Morrow to believe that the notes were of a favorable character.

It is reported that the Amalgamated has taken a lease on the Hunter ranch in Trabuco canyon, and it is understood that the company has posted a guarantee of \$1000 that it will start drilling operations by the first of April.

Drilling is now in progress on the W. K. Robinson ranch, which is a short distance south and east of the Hunter place. The claims secured by the two groups are in a line with these properties.

The first group of locators is composed of L. A. West, J. M. Backs, E. R. Abbey, K. E. Watson, E. S. Morrow, Wm. C. Jerome, Miss Justine Whitney, H. D. Dale, Geo. S. Briggs, Mrs. Eva P. Briggs, Dr. V. A. Rossiter, J. C. Lamb, Judge J. B. West, D. N. Kelly, E. A. Beard, Frank M. Berry and about forty Los Angeles men, among whom are John Mott, attorney; A. B. Cass, president of the Southern California Telephone Co.; John Owen, broker; N. R. Powley, Division Superintendent of the Pacific Telephone and Telegraph Company; C. F. Mason, broker and Jas. A. Lynch with the Richmond Consolidated Oil Company, with headquarters in Los Angeles.

The second group is composed of Jas. Sleeper, E. D. Burge, F. C. Blau, H. A. Gardner, R. C. Mize, W. O. Hart, A. W. Rutan, Mrs. Mabel W. Morrow, E. A. Beard, Frank Berry, N. C. Edwards, R. E. Whitfield, J. D. Spennetta, Dr. J. E. Paul, A. L. Tomblin, Mrs. H. Kirby, Mrs. Bess K. Mathis, Miss E. Intorf, Miss Simmons, Miss W. Newman and Horace Fine.

MUSKOGEE HIGH SCHOOL BUCKS H. C. L.

MUSKOGEE, Okla., Feb. 6.—Corduroy trousers and woolen shirts for boys, gingham dresses and cotton stockings for girls is the program adopted by Muskogee high school students in their fight to knock the kick out of Old H. C. L.

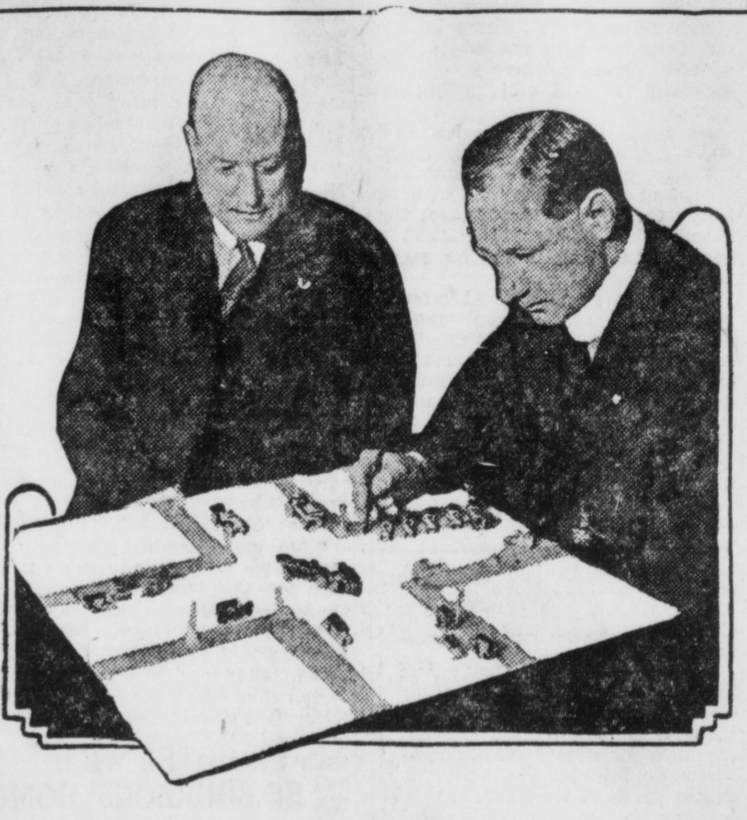

Not only this, but the girls wear their hair in braids—to save hairpins and rouge, and other aids to beauty are "not the thing" at all.

COMPETITION TO PUT SPEED INTO VESSELS

Sharp competition between the Canadian Pacific ocean services and the Nippon Yusen Kaisha bids fair materially to reduce the time of trans-Pacific travel. The former is adding a 22,000-ton passenger steamer to the two now in the service, the running time of which is nine days from Vancouver to Yokohama and seventeen days to Hongkong.

The Japanese company has three boats under construction, each of about 30,000 tons, and it expects that these will make the run from Yokohama to Seattle in eight days.

Tip For Justice Cox In Washington Court Method

Movable Dummies Used to Demonstrate How Accidents Happened

WASHINGTON, Feb. 6.—Police authorities here have a novel way of trying accident cases.

In the traffic court, miniature models of all sorts of vehicles which use the streets help to demonstrate just how accidents occur.

George N. Seriven and Otto G. Manschild, traffic experts, have been assigned as assistants to the commonwealth attorney in traffic accident cases, and are becoming expert in placing the "dummies" in such a manner as to determine the responsibility for accidents in the capital.

BREA CANYON ROAD MAY BE PAVED SOON

Indications are that Brea Canyon, the weak link in the chain of good roads connecting Orange county and the Pomona and Chino valleys, will be paved this year. The work will cost approximately \$139,000.

The distance from the valley boulevard to the Orange county line where the paving starts is six miles and Los Angeles county supervisors figured the cost at \$23,000 per mile.

SUPERSTITION GONE, OPAL IS NOW POPULAR

The superstition associating the opal with bad luck is rapidly disappearing, according to dealers, and this beautiful gem is now in the high tide of popularity.

Few people realize the tremendous demand recently appearing for Australian opals. The world has never seen more gorgeous gems than the fine opals mined in the Lightning Ridge district of New South Wales which flash with fire in all the colors of the rainbow. For years the finest opals in the world were gobbled by representatives of London and other European markets. Now the American trade has agents in the field.

Competition is so spirited that it has placed gem opals in the same class as the most precious stones as far as price is concerned. They bring from \$300 to \$3,000 apiece and are bought up so rapidly that the supply is not equal to the demand.

TREE SEED ARE SENT FOR EUROPE'S FORESTS

Thirty-five million tree seeds, making the most unique gift one nation ever made another, are on the way to Europe, the American Forestry Association has announced. They are intended for re-foresting the battle areas of France and Belgium and the depleted forests and woodlands of Great Britain. The seeds were purchased with funds raised by members of the association. They include Douglas Fir, Western Larch, White Fir, Engelmann Spruce, Red Oak, Sugar Maple, White Ash and Tideland Spruce. More seeds are to be sent when funds are available.

FUR BUSINESS IN ARCTIC

With the present demand for fine furs, the cultivation of commercial relations with the Canadian north is found to be highly profitable, and it looks at present as though a large production of raw material will come from the sub-Arctic next year than ever before, says a United States Commerce report. Traders are planning on an extra busy season and the Indians are sending down word that the prospects for an abundant fur catch were never better.

Call "The Owl Auto Service." Special trips anywhere anytime. 304 Bush St. Phone 1486. Five, seven and twenty-passenger cars. You are protected with \$10,000.00 accident insurance on each car.

FIND STRUGGLE FOR SEPARATE EXISTENCE IS HARD ROW

Property To Be Sold and Proceeds to Go to Foreign Mission Chapels

After twenty-three years of existence as a separate church organization, the Immanuel Baptist church of Santa Ana will be dissolved on April 1.

The members of the church, numbering about forty, have found the struggle to keep up the church organization a heavy burden, and they have become convinced that they can do better church work by throwing the strength of their individual members with other churches of the city.

The church property at the southwest corner of French and East Sixth streets will be sold.

Action in favor of dissolution was taken last night at a church meeting, called to consider the matter.

"We came to the conclusion that Santa Ana is not over-worked but over-churching with small churches that find it a great struggle and expense to exist," said one of the members today, "and we decided to go out of business as a church organization."

It is estimated that the property is worth at least \$5,000. Permission to sell the property must be obtained from the superior court, and the property will be sold on bids. The property includes the church building and the parsonage adjoining the church on the south.

The proceeds are to be used for the purchase and erection of two chapels on the foreign mission field. One chapel, to take half of the proceeds, will be built in Shiu Hing, South China, a city of over 200,000 population in which there are but two gospel chapels and missionaries. The other will be in some needy Baptist field of work in another section of the world.

Thus the life, influence and property of the church will not end but will be simply transferred to fields of greater need and greater usefulness.

The Immanuel Baptist church was an off-shoot of the First Baptist church as the result of a controversy over church administration. For two or three years those who organized the church met in a hall, and then the lot at Sixth and French was bought and the church was built. The church has never been a strong church.

Most of the members will unite with the First Baptist church. At the meeting last night, the resolution for the sale of the property was passed, and has been signed by Mrs. C. I. Pond, clerk of the church. Rev. H. E. Hoare, pastor, will remain with the church until April 1.

NEW ARCHITECT BUYS HOME ON W. SECOND

Coming from Los Angeles to Santa Ana to engage in his profession as an architect, A. C. Kearney has purchased a home at 1414 West Second street from Gus H. Eberlein and the vacant lot adjoining, upon which he will build a bungalow. He has located his office in room 425, W. H. Spurgeon building.

Kearney has had an architect's office in Los Angeles for several years and prior to locating there followed his profession in many of the larger cities of this country and England. He is a nephew of Mrs. Harriett Youngling, and he is locating here at her request.

CLEAVLAND

Own Your Own Home

Throughout America there is today no more vital problem than that of home building. The attention of the people has been attracted not only to the immediate necessity for more homes, but also that the new dwellings must be of the kind that makes for good homes and a happy people.

A dwelling must be more than a shelter. Individual ownership of a home builds good citizenship and a loyal pride in the community. Individual ownership in a home encourages habits of thrift, makes the owner more efficient in business. "OWN YOUR HOME" is a practical demonstration of "AMERICA FIRST."

Our easy monthly payment plan has helped many pay for homes.

PUBLIC SHOULD TAKE EVERY PRECAUTION TO GUARD AGAINST "FLU"

Reports Show That Influenza Epidemic Is Gaining Headway In Many Sections of the Country.

KEEP SYSTEM IN BEST POSSIBLE CONDITION

Persons Weak and Run-down Are Earliest Victims. Fortify Against Attack by Taking Tanlac.

According to late press reports issued by state and city health authorities, influenza is again becoming epidemic in many sections, and some alarm is now felt that it may become general over the entire country.

Owing to the lateness of the season it is not thought possible that the disease can become the great and terrifying scourge that it was last year, when it swept the entire country and claimed its victims by the hundreds of thousands. The danger is too great, however, to take any chances, and everything possible should be done to ward it off.

Medical authorities agree that people who are weak and run-down are the earliest victims of influenza. If you find yourself tired (and nervous), weak, and losing flesh, or if you are in a generally run-down condition or catch cold easily, this warning should be heeded promptly. You are really in danger if exposed to the disease, because it is generally believed to be very contagious, and you are apt to fall an easy victim if you come in contact with the germs.

People who are well and strong are not likely to contract the disease because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution, in other words, begin immediately to build up your powers of resistance.

To accomplish this it has been demonstrated that nothing on earth will strengthen you and build you up like Tanlac, the powerful re-constructive tonic which contains the very elements needed to build up the system and give you fighting strength to ward off the influenza germ.

First of all, Tanlac begins its work by creating a good, healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural functions, thus helping to build up health and strength in the natural way.

Tanlac is also an ideal strengthening tonic for persons who are suffering from the after-effects of influenza, grippe, and bronchial troubles, and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are enclosed with every bottle of Tanlac. It is also important that the every-day rules of hygiene be observed; that is, sleep in well-ventilated rooms, get plenty of fresh air and exercise, and keep away from crowds.

Tanlac is sold in Santa Ana by Rowley Drug Co., in Fullerton by G. W. Finch, in La Habra by R. H. Hilbert, in Huntington Beach by Rigdon's Pharmacy, in Orange by Dittmer's Mission Pharmacy, in Placentia by A. J. Robinson, in Tustin by Tustin Drug Co., in Brea by Brea Pharmacy, in Buena Park by Regal Drug Co., in Garden Grove by O. H. Anderson, in Laguna Beach by Laguna Beach Pharmacy, and in Seal Beach by Wm. S. Templeton.

91 PER CENT IN NET RETURNS AS SHOWN

(Continued from page nine)

for the year 1919. The increase has been due in a measure to increased acreage. Trees that are coming into bearing now were another source of increase. The yield per acre accounts for the major portion of the greater showing made over previous years. The year 1913-14 was the banner year in the average price received per packed box, \$3.72, and 1914-15 was the low mark, \$1.69. The average for 1917-18 was \$3.64 and for 1919 \$2.42.

For the season just closed the cost of operation, including depreciation on equipment and packing and handling was \$9.6343 per packed box. The administrative cost was \$0.0371.

The old board of directors was re-elected for the coming year. They are Willard Smith, president; W. A. Knuth, vice-president; A. S. Adams, J. F. Allen, J. V. Meehan, with H. D. Nichols as secretary and manager.

"The fiscal year just closed is the biggest year that this association has experienced," said Nichols in his annual report to the members.

"Our shipments during the year amounted to 200,690 packed boxes, which is more than double the shipments of any previous fiscal year of this association. The net proceeds, while not averaging so much per packed box, are 91 per cent greater than the year previous, which at that time was the greatest year in point of returns.

Average \$4.55 per Hundred

"The gross returns to our association for the year amounted to the sum of \$783,112.09, or more than three quarters of a million of dollars. The total amount paid to the growers was \$686,560.93, or an average of \$3.42 per packed box for all fruit delivered at the packing house. This, figured on the basis of 75 pounds to the packed box, gives us an average of \$4.55 per hundred-weight for all fruits delivered through our association.

"The amount retained to cover the cost of operation was not raised over that of a year ago, which was 50 cents per packed box. The total cost of operating for the year was 46.17 cents per packed box, "this does not include stock investment in auxiliary organizations, which is included in the 50 cents mentioned, which includes a reserve for depreciation of 2.61 cents per box and the wiping from our books of the balance of the impaired capital account which amounted to \$147.12.

"Three and eighty-three hundred cents per packed box represents the amount of the refund from our operating retain, and also represents the amount required to pay for our stock investments in the Fruit Growers' Supply company and the Exchange Products company for the season of 1919, in accordance with our agreement with the said companies.

"This amount of money should have been retained but was not so retained so that the growers actually received what would have been the refund at the time of the final payment of the pools.

Wipe Out Debt

"Many of our older members are becoming paid out on the 5 cent equipment retain, amounting to \$30 per acre, and this year the amount received from this source has been sufficient to pay off the last of the debt, a mortgage of \$6500 which stood against this association at the beginning of 1919. We have in addition a paid up inventory amounting to \$852.12 and a refund from the Fruit Growers' Supply company of \$3528.94. This money belongs to the reserve for depreciation account and may be used as a working capital until such times and in such amounts as the same may be required to replace our equipment.

"In the handling of the increased amount of fruit during the past season we found that we had outgrown our clothes and in order to handle efficiently our increasing crops it will be necessary for us to increase our capacity. Our greatest present need is for additional floor space, both basement and main floor.

"We have during the past year paid for outside hauling nearly \$4,000, which amount, if applied to additional hauling equipment, would mean a considerable saving to members. The board of directors has purchased a new two-ton Mack truck."

The truck was purchased through Darnwood and Garroway, agents at Orange.

SMART-FINAL CO. SHOWS INCREASE

(Continued from page nine)

Territory #6 being extended regularly and the business is expanding rapidly.

Among the guests last evening was E. D. Henderson of Saginaw, Mich., who is the father-in-law of Mr. Final and uncle of Mr. Smart. He is spending the winter with Mr. Final and family at Long Beach.

The board of directors is composed of A. E. Bennett, C. A. Miller, F. G. Freeman, W. S. Suddaby, W. W. Simon, H. D. Final and J. S. Smart, all of whom were at the dinner.

Others present were: Santa Ana—J. R. Paine, A. W. Lutz, P. W. Smith, Halsey Lamme, Chas. S. Osborne, M. L. Keeler, Rev. W. L. H. Benton, J. E. Bockman and Horace Fine.

Pomona—C. O. Adams, E. S. Matlock, A. C. Fisk, C. D. McCullom, Geo. W. Reger, Robt. D. McAfee, Erle V. Simon, Geo. A. Corbett, E. Grady Barnett.

Long Beach—D. E. Troxel, C. B. Barnett, T. G. Pratt, F. G. Metzger, Wilmington—C. U. Speaker, E. T. Bell, C. A. Ford, Gerald W. Lytle.

To Prevent Influenza Colds cause Grip and Influenza—LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

Crate Company Doubling Its Capacity Ready to Rush Work on Big Order

On December 28 the plant of the California Crate Co. burned to the ground. By February 9 a new plant, built from the ground up, with double the capacity of the old plant, will be making crates.

This is a remarkable record in meeting difficulties energetically and resourcefully.

When the Crate Company plant burned down on filling an order for 270,000 onion crates had commenced. That order must be filled by May 15. It will be filled.

The company bought four acres on the Santa Fe railroad, north of the old leased location. A building 48 by 96 feet has been built and machinery for double the capacity of the old crate machinery has been bought and installed.

The new building has a concrete floor, galvanized walls and a composition roof, reducing the fire hazard to a minimum.

In order to fill the order for crates the firm will put on two shifts of workers at once, and if necessary three shifts will be put on. Seven cars of materials have been received from the mills, and the crate

plant is just about ready to go. A separate building 36 by 88 feet is to be built for toy manufacturing. The foundation is laid, machines have been bought and construction of the building is going ahead rapidly. The firm is selling toys now for April delivery. What's more, the toys will be delivered promptly on time.

Orders are being taken for six toys. Three of these are for various sizes of aeroplanes, one is for a boat, another for what is designated as a California hummingbird, it being a toy to be whirled by a string, and the sixth is an automobile racer model called the California speedster.

The new toy plant will have double the toy-making capacity of the old plant.

BAKERSFIELD UNION PAINTERS ON STRIKE

BAKERSFIELD, Feb. 6.—Differences arising between painters of local No. 314 of Bakersfield and the local painting contractors has resulted in an open breach, and the painters are on strike, holding out for a \$9 per day wage scale, as against the \$8 received formerly. There are approximately forty-five members of the local painters' union. It is said the Building Trades Council has not endorsed the stand taken by the workmen.

TAX ASSESSOR QUILTS

LOS ANGELES, Feb. 6.—To take effect February 15, A. Lynn Parmley, Long Beach city assessor for the past five years, has tendered his resignation. Mr. Parmley announced that he accepted the position of cashier of the New Western Savings Bank to be opened this month. Parmley's successor has not been determined upon as yet.

Undue Exercise. "Oh, Harry," said the slangy though sweet young thing, "father is sure strong for you."

"I know it, dear," returned Harry ruefully, after an interview, "but I think a man of your father's age ought to conserve his strength."

Dr. Magill, Osteopathy, Phone 956W.

Spencer Corset, 801 Spurgeon St.

PUBLIC MEETINGS AT VISALIA UNDER BAN

VISALIA, Feb. 6.—Following a report from the Board of Health in which it was stated the local situation is serious, the City Council has prohibited public gatherings of all kinds until after an abatement of the present epidemic of influenza. The order to close will affect theatres, dances, pool halls, lodges, churches and schools. The first advice were for exception of the schools, but on later reports of an increase in the number of cases these were also included.

The action was taken early, it was stated in the report from the health officials, because there are not now available here suitable places to be used for emergency hospitals, should the need arise.

BOXING ARENA SOLD TO PAY WAR TAXES

LONG BEACH, Feb. 6.—To satisfy a claim for \$912 for war tax on admissions to the Silver Spray arena whose usefulness as a boxing pavilion was ended a few months ago by an anti-boxing election in this city, the structure was auctioned by L. G. Cottrell, general deputy for John P. Carter, internal revenue collector. H. W. Walton, realtor, bid it in the arena for \$1600 and will wreck it to sell the 100,000 feet of lumber it contains.

4000 NEW CARS TO TRANSPORT CAL. FRUITS

Four thousand new refrigerator cars are to be built by the Pacific Fruit Express company this year in order that the increased fruit traffic of California may be properly taken care of. This number, added to the 15,000 cars now in service will give a total of 19,000 such cars available to the fruit shippers on Southern Pacific lines on the Pacific coast. Today's announcement says that construction will be started at once and will involve an expenditure of from \$15,000,000 to \$16,000,000.

Business interests in California will be interested to know that 1,000 of the cars will be built in the Pacific Fruit Express shops at Roseville and Los Angeles, with the balance distributed so as to assure the earliest possible delivery.

It is expected that the first cars will be ready in May and that the major part of them will be in service in time for the fall shipments.

The various fruit growers' organizations have been awaiting with considerable anxiety the outcome of the question of car supply. There was a marked shortage during some periods of last year. It is known also that because of the increase in operating expenses, due to the higher wages and tremendously increased cost of ice and other materials the earnings of the Pacific Fruit Express Company were very unsatisfactory, it being reported that it did not earn its operating expenses and taxes. This coupled with the uncertainty as to the future of the railroads and the great delay in establishing the new refrigerator tariffs, had a very adverse effect upon the prospect for additional equipment. Informal assurances of the Fruit Growers Association that they were not opposed to increase in refrigerator car rates and the very imminent and pressing need for the equipment to take care of the fruit growing industry of this state, resulted in the railroads acting without congressional legislation in connection with return of their properties to private operation.

"It is simply a case of the stockholders in the Pacific Fruit Express meeting a pressing emergency without knowing what will happen," said a representative of the company. "Railroad legislation is yet up in the air but we are trusting that Congress will do the right thing and we are taking a chance in behalf of California, whose interests are our own."

News Nuggets

From Northern Orange County

Mr. and Mrs. Emil Heying have returned to Anaheim after a few months' visit to relatives in Missouri.

Mr. and Mrs. B. A. Meinecke are erecting a new home on West Center street, near Thalia, Anaheim. It will be ready for occupancy in about two weeks.

Rev. H. A. Hodges of Magdalena, N. M., is in Anaheim on a visit to his sons, Walter Hodges and Warren Hodges and a guest at the Walter Hodges home.

Mrs. J. H. Horst, of Portland, Ore., is visiting her son, C. W. Horst, of the manual training department at Fremont school, Anaheim. She is to remain several weeks.

Fritz Kemper, who was injured in Long Beach eight weeks ago has recovered sufficiently to return to his home from the Anaheim hospital.

Miss Margaret Gemmel of St. Paul, Minn., is the guest of her nephew, A. Gemmel, of the Mateer-Gemmel Drug Co. She will probably remain a year and as present is assisting Mr. Gemmel in the drug store.

The Olinda Land company has quit drilling on its No. 21. Preparations are now being made to abandon the well at 4740 feet. At no time has this well shown a sign or indication of oil and it was thought to carry it further would be a waste of time and materials.

Stockholders of the Anaheim Masonic Temple Association enjoyed a banquet at James' in Santa Ana on Wednesday night. The banquet was given because the past year had been a most prosperous one. Covers were laid for Messrs. and Mesdames H. O. Henderson, Wm. Falkenstein, A. Alexander, H. M. Adams,

Chas. Harbeson, J. Lloyd Moore, Mr. and Mrs. Harbeson were substitutes for Mr. and Mrs. Chas. Eygabroad and Mr. and Mrs. Moore were substitutes for Mr. and Mrs. Martenet, who were unable to attend on account of illness.

The ornamental lights for the lighting zone established by the city Board of Trustees of Fullerton, some time ago, will be installed, the delay being on account of the engineer being compelled to give his entire time to sewer matters which were of more vital importance, this work now having reached the stage where the engineer can give more of his time to the lighting project.

CHRISTIAN SCIENCE

V. O. STRICKLER IS SPEAKER IN SANTA ANA

Introduction Is By C. M. Isaacson of the Local Organization

The speaker was introduced by C. M. Isaacson, who said:

"The Bible tells us that it is 'God that health all our diseases' and in the definition of God, found in the Christian Science text book, Science and Health with Key to the Scriptures, written by our Reverend Lecturer, Mary Baker Eddy, we read that God is Principle, Life, Truth, Love."

"When we experience our first physical healing through the teaching of Christian Science, we are grateful for this healing, and a desire is awakened within us to take up the study of Christian Science to learn why we were healed."

"We soon see that it is according to Principle, God, that we receive healing and that it is perfectly natural. We then find that we have a Principle which is ever present and by which we can solve every problem which presents itself to our thought. And we are more grateful for this than for the first physical healing."

"We have with us this evening, one who is well qualified to tell us more of this healing Principle and I am pleased to introduce to you Mr. Virgil O. Strickler, C. S. B. of New York, N. Y., member of the Board of Lectureship of The Mother Church, The First Church of Christ Scientist, Boston, Massachusetts, who will now address you."

Virgil O. Strickler, member of the Board of Lectureship of The Mother Church, in Boston, Mass., delivered an address on Christian Science last night to an audience at Yost's Theater.

As it becomes more generally understood that through the ministry of Christian Science people are healed of sickness, sin, unhappiness, worry, fear, and other discordant conditions, there is an ever increasing desire upon the part of the general public to learn how these results are accomplished. It is the purpose of this lecture to explain how Christian Science does this. There is no mystery about Christian Science healing, nor is it difficult to understand. It can be stated without any reservation whatever that every person who is willing to do so may learn through Christian Science how to heal sickness and to destroy the desire to sin, for himself and others.

MANY DIFFERENT RELIGIOUS BELIEFS

It is said that there are more than two hundred different kinds of the Christian religion alone, not to mention the hundreds of other forms of religions that are not Christian. It is a fact that people do entertain widely differing religious beliefs. In many instances the differences are irreconcilable and every one of us is filled with all of the sincerity of faith he is capable that his own particular beliefs are true. It must be conceded that, in the main, all people are equally honest and equally sincere in their religious beliefs.

The only reason why these groups, together in different forms of religions, are because they honestly believe that through their own particular form of religion they will find the good which they so earnestly desire."

As one considers the subject of religion from this broad viewpoint it becomes entirely plain that most of the people in the world are believers in their religion many things that are not true.

There is only one truth about any subject, although there may be many erroneous beliefs about it. This is as true of religious subjects as of others. If one believes erroneously as to what is the law, he will not be an efficient engineer if his beliefs concerning the rules of mathematics are faulty. In each case erroneous beliefs must be displaced by positive knowledge before correct results can be attained.

Every one will recognize not only the desirability, but the necessity, of exchanging false and erroneous beliefs about religious matters for positive truth. In no other way can he grow spiritually. Spiritual truth is the truth about spiritual things, but as long as one believes erroneously about spiritual things he is on a false track and his erroneous beliefs will deprive him of the benefits that would otherwise come to him through a correct understanding of the truth. He should remember that Jesus proved that there is enough spiritual truth in existence that can be taught to and understood by human beings to enable them to heal the sick and raise the dead and no one should be satisfied until he has attained to this understanding and demonstration.

True religion consists of spiritual truth, and not of erroneous beliefs; hence it follows that one's religion is limited to the amount of spiritual truth he knows, and that erroneous beliefs are the only so many delusions that serve no other purpose than to obstruct spiritual growth.

The trouble with most of us has been that we have believed erroneously without knowing it. In my own case it was not until Christian Science came to me and taught me the difference between spiritual truth and erroneous human belief that I learned how to dissect my own beliefs. No one could be more certain of the correctness of his religious beliefs than I was of mine at that time. I had been believing honestly and sincerely many things that were false. I then commenced to learn and experience for the first time the real significance of the words used by Jesus in the eighth chapter of John, when he said, "Ye shall know the truth, and the truth shall make you free."

Christian Science aims to destroy erroneous religious beliefs by substituting a knowledge of truth in place thereof, and to destroy out of the human mind all evil qualities by planting good qualities in their stead. It wages relentless warfare against all wrong mental qualities. It seeks to substitute love in place of hate, selfishness in place of selfishness, honesty in place of dishonesty, and truth in place of error. It lays tremendous emphasis upon the necessity for "bringing into captivity every thought to the obedience of Christ (II Cor. 10:5), as the Bible commands. It shows that the cause of all disease and sin is mental, and not physical, and that both sickness and sin are destroyed by the evangelization of the human mentality with truth and love. It teaches without any reservation whatever that the truth taught and practiced by Jesus, when understood and applied, is sufficient to drive out of the human mind all evil qualities, and regenerate the sinner, and Christian Scientists everywhere are engaged daily in demonstrating and proving this to be true.

Every student of religion should begin to give heed to what the Bible teaches concerning the importance of looking to the mental rather than to the physical for the cause of disease. We read in Romans 8:6, 7, "To be carnally minded is death; but to be spiritually minded is life and peace. Because the carnal mind is enmity against God: for it is not subject to the law of God, neither indeed can be." Again in Philippians 2:5 it is said, "Let this mind be in you which was also in Christ Jesus;" and in Romans 12:2, "Be ye transformed by the renewing of your mind."

These significant statements from the Scriptures leave no room for doubt as to the cause of sin, disease, and death, or their cure. The carnal mind is nothing more or less than the unregenerated human mind. It is the human mind in its natural state, filled with hatred, selfishness, deceit, dishonesty, and other evil qualities, and with superstition and false beliefs. These evil and erroneous mental qualities result in sin, disease, and death, and in all human discord.

The command is to get rid of erroneous mental qualities, and to have in us the mind which was also in Christ Jesus, and in this mind there was not a single sinful quality, nor any superstition or false religious belief. Thus the human mind is renewed by the destruction of erroneous and sinful mental qualities, and the substitution in their place of qualities that inhere in the mind of the Master.

As this renewing process goes on, suffering and discordant conditions begin to disappear, and when it is finished, and every mortal thought has been brought into subjection to Christ, then man will be transformed from a sinning, suffering mortal into a state of peace and harmony. The carnal mind with its sin and superstition produces the conditions that lead to death, while to be spiritually minded, that is to have the mind that was in Christ Jesus, "is life and peace." Christian Science teaches that this is the precise process by which human beings are saved from sickness and sin.

It will thus be seen that Christian Science healing in every case is spiritual, and results from the operation of the healing Principle, the law of human consciousness, and not from the action of one human mind upon another, nor from human will, nor from hypnotism, nor from mental suggestion.

To summarize the matter in a single sentence, it can be said that Christian Science healing is accomplished through the correct thinking and right living, and in no other way can one demonstrate the Principle that heals.

HONEST SKEPTICISM

Although the healing of physical and mental diseases by spiritual means was widely practiced, both in Old Testament and New Testament times, and was expressly commanded by Jesus, and although Christian Science during the last fifty years has actually healed in this way large numbers of people from all kinds of physical and mental diseases, there are still a great many people who honestly find it difficult to understand how it is possible for the sick to be healed without drugs, and entirely by spiritual means. Even among those who profess to believe in the Bible and in the omnipotence of God, there are many who have honest doubts that the power of God is sufficient or available to deliver from sickness, and these doubts often become the effort to gain an understanding of the way by which spiritual healing is accomplished.

To all such it can be said that Jesus healed the sick without drugs, and what is more important to us, he taught other people how to do so, thus proving that his method of healing the sick by spiritual means could be taught to others, and understood and practiced by them. As the disciples walked up and down the country with Jesus, listening to his explanations of spiritual truth, and watching him apply this truth to human needs as he healed the leper, the lame, the deaf, the blind, whom he met by the wayside, they began to understand for the first time that divine Love is adequate to meet every human need, and that Jesus has come to teach the way whereby every one might learn how to prove it.

Some of the disciples seemed to grasp this truth and the manner of its demonstration very slowly, but to them all there finally came a time when Jesus considered that they had made sufficient progress to prove it for themselves. He then sent them forth with the command that they raise the dead, and the Bible records that they were able to do so.

Later these same disciples taught the Principle of spiritual healing which they had learned from Jesus to their own disciples, and history shows that on down through a period of about ten generations the healing of the sick by spiritual means continued to be a part of the regular ministry of the Christian church, and that the dead were raised during the first and second centuries. Moses and the prophets also healed the sick and raised the dead and did many other wonderful works in demonstration of the power of Spirit

to meet human needs, and the Old Testament is filled with such instances.

It will thus be seen that the knowledge of spiritual truth, and the method of its application to drive out of the human mind all evil qualities, and to be a good man, and must love God, otherwise the law of good does not operate for him. To attain goodness, one must think and live as nearly as he can in accordance with spiritual truth; one's motives and desires must be honest, and his desires must be in accordance with the law, and the law, and then the law operates through him and in his behalf. If he is an evil man, that is, if he thinks and lives erroneously, such wrong thinking and living separates his consciousness from the law of good, so that the law cannot then guide his footsteps or make his work together for good for him.

SOURCE OF GOOD AND EVIL.
Outside of Christian Science very few people have ever reasoned out the question to their own satisfaction as to where good and evil come from, and still fewer have even a satisfactory theory as to how good may be secured or evil avoided in actual human experience.

All through the centuries there has been a general belief that good and evil come as the result of luck or chance, but this belief is necessarily incorrect. Among all polytheists, or those who believe in many gods, there is the belief that some of the gods send good and that others send evil, and they seek to propitiate the latter by sacrifice and rites, believing that in this way alone they can escape from evil.

Among monotheists, or those who believe there is but one God, there is the belief that the one God creates and sends both good and evil. This belief, however, involves so many impossible contradictions that it has been actually to the belief in the existence of an evil being called "devil," who is supposed to create and send evil. Thus to escape the belief that God sends both good and evil, those who call themselves monotheists are really polytheists, for they actually believe in a God of good, and in an evil power, or devil, who sends evil.

In much the same way there was born in the consciousness of Mrs. Eddy the idea that there exists a law of Spirit. She had observed that sometimes great suffering and distress were produced by material forces, and sometimes great suffering was devastated and destroyed by their operation, hence she came to the conclusion that a God who possesses infinite wisdom and goodness could not operate through laws that produce both good and evil. She, therefore, came to the conclusion that God is governing His children from a spiritual source, and that His law is through material laws, and that through material laws, Mrs. Eddy also studied the miracles in the Old and New Testaments, and came to the inevitable conclusion that all of those events were correlated by means of an underlying spiritual law that had been known and understood by the men of old, and that she could discover the law it would be found to operate in the same manner now as in Bible times; that it would be a healing law, and would now heal people of sickness and sin and every evil human condition the same as then.

This idea grew and expanded in her consciousness until it became the impelling motive of her entire life. In the year 1866 she discovered the law of Spirit, and named it Christian Science. After waiting nine years, during which time she subjected the Principle that she had discovered to the broadest practical tests in healing sickness and other forms of human discord, she published a statement of Christian Science in a book which she entitled "Science and Health with Key to the Scriptures." This book is now everywhere recognized as the only textbook of Christian Science. A great religious movement has formed around its teachings, which have been spread throughout the earth with its churches. The spread of Christian Science has been phenomenal, and its growth has resulted from healing. Every adherent of Christian Science has actually been healed of some sickness, disease, or sinful appetite, and most of them have been healed of many such conditions. These facts are easily verified, and are worthy of every serious consideration.

SPIRITUAL LAW

Mrs. Eddy discovered the law of Spirit as truly as Sir Isaac Newton discovered the law of gravitation, and this fact should be thoroughly understood. Just as Newton demonstrated that the movements of material bodies are regulated and governed by this material law, so Mrs. Eddy discovered the Principle that governs the entire universe, including every detail in the lives of men. That supreme, creative, governing, omnipotent Mind or Principle is God, the Ruler of man and the universe.

When we watch water flowing over the land we see that without hesitation or delay it always selects the low places. All fresh water is continually striving to reach the sea, where it will be at rest. In choosing its course it measures the topography of the ground more accurately and more quickly than the engineer could do with instruments. No embodied mind is present to tell it where to go, but there is an unerring, invisible law everywhere present directing its movements, and always guiding it in the true course. If some of the water exists to go toward the water in its movement toward the sea, how much more certain it is that equally perfect spiritual law exists to guide the footsteps of tired and discouraged human beings out of the wilderness of sickness, failure, and sin into the kingdom of peace.

The Bible tells us that such a law exists and is operating for our benefit. In Psalms 37:23 we read, "The steps of a good man are ordered by the Lord." Again, in Romans 8:28, "All things work together for good to them that love God," and in Romans 8:2, "For the law of the Spirit of life in Christ Jesus hath made us free from the law of sin and death."

What a sense of security comes to one when he realizes that there is really a law of good operating that will guide his footsteps as truly as the law of gravitation guides the water. And what a sense of peace comes from the assurance that there

is an infinite overruling Mind that governs everything in the universe from the least to the greatest, and causes "all things (to) work together for good."

However, a condition is attached. One must desire to be a good man, and must love God, otherwise the law of good does not operate for him. To attain goodness, one must think and live as nearly as he can in accordance with spiritual truth; one's motives and desires must be honest, and his desires must be in accordance with the law, and the law, and then the law operates through him and in his behalf. If he is an evil man, that is, if he thinks and lives erroneously, such wrong thinking and living separates his consciousness from the law of good, so that the law cannot then guide his footsteps or make his work together for good for him.

SOURCE OF GOOD AND EVIL.
Outside of Christian Science very few people have ever reasoned out the question to their own satisfaction as to where good and evil come from, and still fewer have even a satisfactory theory as to how good may be secured or evil avoided in actual human experience.

All through the centuries there has been a general belief that good and evil come as the result of luck or chance, but this belief is necessarily incorrect. Among all polytheists, or those who believe in many gods, there is the belief that some of the gods send good and that others send evil, and they seek to propitiate the latter by sacrifice and rites, believing that in this way alone they can escape from evil.

Among monotheists, or those who believe there is but one God, there is the belief that the one God creates and sends both good and evil. This belief, however, involves so many impossible contradictions that it has been actually to the belief in the existence of an evil being called "devil," who is supposed to create and send evil. Thus to escape the belief that God sends both good and evil, those who call themselves monotheists are really polytheists, for they actually believe in a God of good, and in an evil power, or devil, who sends evil.

In much the same way there was born in the consciousness of Mrs. Eddy the idea that there exists a law of Spirit. She had observed that sometimes great suffering and distress were produced by material forces, and sometimes great suffering was devastated and destroyed by their operation, hence she came to the conclusion that a God who possesses infinite wisdom and goodness could not operate through laws that produce both good and evil. She, therefore, came to the conclusion that God is governing His children from a spiritual source, and that His law is through material laws, and that through material laws, Mrs. Eddy also studied the miracles in the Old and New Testaments, and came to the inevitable conclusion that all of those events were correlated by means of an underlying spiritual law that had been known and understood by the men of old, and that she could discover the law it would be found to operate in the same manner now as in Bible times; that it would be a healing law, and would now heal people of sickness and sin and every evil human condition the same as then.

This idea grew and expanded in her consciousness until it became the impelling motive of her entire life. In the year 1866 she discovered the law of Spirit, and named it Christian Science. After waiting nine years, during which time she subjected the Principle that she had discovered to the broadest practical tests in healing sickness and other forms of human discord, she published a statement of Christian Science in a book which she entitled "Science and Health with Key to the Scriptures." This book is now everywhere recognized as the only textbook of Christian Science. A great religious movement has formed around its teachings, which have been spread throughout the earth with its churches. The spread of Christian Science has been phenomenal, and its growth has resulted from healing. Every adherent of Christian Science has actually been healed of some sickness, disease, or sinful appetite, and most of them have been healed of many such conditions. These facts are easily verified, and are worthy of every serious consideration.

There is no such thing as an angry God waiting to smite you for sin, for he has no knowledge of sin in any form. His law is against sin, yet the punishment for or of sin is by sin, and when the sin is destroyed and put away out of the human mind, the punishment stops, but as long as the sin remains it will whip and punish the sinner.

Thus the forgiveness of sin consists in the knowledge of sin, and the sin exists nowhere but in the carnal human mind. The belief that God pardons sin merely because you ask Him to do so, without turning it away from you, is foolish self-deception.

People ask how God can destroy sin when he knows nothing of sin and does not even know that it exists. The answer is plain. He destroys it just as the sun destroys the darkness which it never sees. When the light appears the darkness disappears. Good and evil cannot mingle any more than light and darkness can mingle. One vanishes before the other.

MAN
Sooner or later every one must learn the truth about man. When one asks himself, who is man? what is he? where does he come from? is he spiritual, or is he material? many channels of thought are opened. Upon the correct answer to these questions will depend the solution of every human problem.

Every one has read the two differing accounts of creation in the Bible. In the first chapter of Genesis we are told that God created man in His own image, after His own likeness, and made him in the image of God. In the second chapter of Genesis, however, we find the allegorical account of how God came to this earth and made man out of the dust of the ground. Then follows the story of Adam and Eve, and the garden of Eden. We also read that a deep sleep fell upon Adam, and then that sin appeared as a brother murdered brother, and so, from that time until now, the story of man has been at enmity against God.

In view of all of this it becomes vitally important that we find out the truth about man. Was man made in the image and likeness of God, and hence created a spiritual being, or was he made out of the dust of the ground as a material being? Christian Science accepts the first account of the creation as true, and insists that man is spiritual, and not material. This makes it necessary

for Christian Science to explain how it is possible for man to be wholly spiritual when we seem to see him as flesh and blood with out actual physical eyes. Christian Science does this, and makes it perfectly plain, showing that the material man is nothing more or less than the carnal mind's false concept of man.

The carnal mind is entirely material, hence, it "is enmity against God," because "God is Spirit and Spirit and matter are opposites." The carnal mind is composed of the agition is established between his consciousness and the law, and then the law operates through him and in his behalf. If he is an evil man, that is, if he thinks and lives erroneously, such wrong thinking and living separates his consciousness from the law of good, so that the law cannot then guide his footsteps or make his work together for good for him.

SOURCE OF GOOD AND EVIL.
Outside of Christian Science very few people have ever reasoned out the question to their own satisfaction as to where good and evil come from, and still fewer have even a satisfactory theory as to how good may be secured or evil avoided in actual human experience.

All through the centuries there has been a general belief that good and evil come as the result of luck or chance, but this belief is necessarily incorrect. Among all polytheists, or those who believe in many gods, there is the belief that some of the gods send good and that others send evil, and they seek to propitiate the latter by sacrifice and rites, believing that in this way alone they can escape from evil.

Among monotheists, or those who believe there is but one God, there is the belief that the one God creates and sends both good and evil. This belief, however, involves so many impossible contradictions that it has been actually to the belief in the existence of an evil being called "devil," who is supposed to create and send evil. Thus to escape the belief that God sends both good and evil, those who call themselves monotheists are really polytheists, for they actually believe in a God of good, and in an evil power, or devil, who sends evil.

THE ADAM-MAN

But no matter how sincerely people may believe that God is a magnificent man, seated upon a material throne, and having a material habitation in a material place called heaven, such belief does not make it true. God is Spirit, and is wholly spiritual. There is not one material element in Him nor in anything that He created. He did not create matter in any form, nor did He create a material man. God created everything spiritually and not materially, and the only kind of man created by Him is the spiritual man, who is the exact own image and likeness, precisely as described in the first chapter of Genesis.

The Adam-man is not the image of God, and in the second account of the creation in the second chapter of Genesis it is nowhere stated that the Adam-man was made in God's image and likeness, or that he was made perfect. Those statements are to be found in relation to the real man. But in spite of this, people have gone on believing that the Bible taught that Adam was made in God's image.

Christian Science is the only system of teaching that I know of that teaches about that even makes an attempt to explain the difference between the man and the Adam-man, and it does explain it and makes the fact perfectly plain, by pointing out, as has already been said, that the Adam-man is merely the false, material mis-concept of man. It is as false as the material image of God through green eyeglasses. As long as he did so, everything would appear to be green. If he were to try to remove the green from an object, he could not do so, for the reason that the green was not in the object, though appearing to be there, but was in the lens through which he looked at it. The only thing necessary for him to do in order to translate the entire green universe back into its normal aspect would be merely to take off the green lenses.

In precisely the same way the material universe and material man are translated back into the spiritual, where in fact they have always been, by merely taking off the material green eyeglasses through which we have looked at them. If it were conceivable that one could now rid himself of every material element in his mentality, and of every sin and false belief, so that nothing remained in his consciousness except the spiritualized truth, he would not be the same as the material man, but would be the spiritual child of God.

From the foregoing consideration of the subject of man, and of the difference between spiritual man and the so-called material man, it is obvious that there are certain human qualities, concerning the nature and character of matter that may be examined with much profit.

MATTER

Since the material man is only the carnal mind's mis-concept of man, it follows that matter has no entity, and is in every case nothing but material thought objects. The Christian Science shows that "there is no life, truth, intelligence, nor substance in matter," Science and Health, page 468, lines 9 and 10, and that "Matter has no sensation," ibid., 485:3. Everything in the objective world, which appears to be a material sense as matter, is merely the visible manifestation of material thought formed in the material or carnal mind, and cognized by the physical senses as a material thing. If these statements concerning matter be true it will be seen at a glance that they will explain many phenomena in human experience which hitherto have been unexplainable. That they are true is not yet admitted absolutely and conclusively, as will be seen.

When Mrs. Eddy first made the discovery that matter in every form has no intelligence, life, sensation, or substance, but is merely the false mental concept of the material or carnal mind, her statements were not accepted as true by physical scientists. They declared that matter was real substance. They asserted that every object, whether it be a star, a flower, a rock, or the human body, was composed of atoms brought together and held together under varying conditions, and that the atom was material. Hence, they said that since the starting point of matter was the material atom, matter must of necessity be substance.

Mrs. Eddy took no pains to defend her statements upon the subject. She

had seen the truth about it and, knowing that it was the truth, she was quite content to let the statement of her discovery go into consciousness, well knowing that in the end the truth would prevail. It is most interesting, therefore, to observe what has taken place since then. Within recent years a physical scientist discovered that the atom is not the starting-point of matter, and that the atom is itself composed of electrons. When asked to state the nature and character of the electron, he said that it was energy, which is not material substance. Since then the physicists have come out frankly and fairly and now say that any inquiry concerning the nature and character of the electron should be referred to the metaphysician, and that the whole subject belongs to the domain of metaphysics and not physics.

The far-reaching effect of this is at once apparent, for it frankly admits that the starting-point of matter is not material, but mental.

CAUSE AND CURE OF DISEASE
The importance of this cannot be overstated. As sin, disease, and death come from the belief of life, intelligence, sensation, and substance in matter. If it be true, and it now seems to be settled, that there is no life in matter, that it has no sensation or intelligence, and is not substance, then it follows that all material theories concerning disease, and the method of curing human problems, will have to be changed from a material to a spiritual basis. If matter is itself merely a thing of thought objectified, it follows that disease in whatever form is also merely the objectification of diseased beliefs upon the human body, that such beliefs originate in the carnal mind, and not in the body, but are manifested on the body only after they are formulated in the material or carnal mind. If this be true, and it is true beyond all possible question, it then follows that the correct way to treat disease is not through matter, nor by giving material remedies and drugs to the body, but by destroying the images of disease out of the human mind.

Every one must see at a glance that disease is not itself an entity. It has no mind, intelligence, volition, nor presence. Disease is neither self-created nor was it created by God. It originates in the first instance in the carnal human mind, in the form of diseased thought, and is then objectified on the body by the material beliefs of that same carnal mind. The true way to cure it, therefore, is to give to the human mind something that will neutralize and destroy the disease producing qualities and beliefs. The thing that does this is the spiritual truth, which Christian Science brings to the human mind, and in this way Christian Science has healed very many people from all kinds of disease.

NO SUBSTANCE IN MATTER

Jesus knew that there was no substance in matter, and he knew it so perfectly that he walked through solid doors and walls. He knew what was true about matter, namely, that it is only the manifested belief of the material, carnal mind, and since he did not have carnal mind, he did not appear to him as substance. His consciousness was spiritualized. He knew that the only substance is Spirit, but because of the material element in their consciousness the people were unable to see or comprehend Spirit as substance, they could only think of matter as substance, and therefore to them matter appeared as substance.

Knowing that there was no substance in matter, he knew that man was not material. Mrs. Eddy pointed out many years ago in Science and Health (see pp. 476, 477) that Jesus saw the real man where mortals saw the mortal man, and that his true view healed the sick. This statement, pondered over by this statement, the more it becomes apparent that it is necessarily true. When there came to Jesus the man who had been born blind, and the man who had grown from infancy to mature years without the perfect organs of sight, Jesus healed him instantly. He looked through the carnal mind and saw the real man, who, to every carnal eye, was a mortal man.

Jesus knew that God had never created one of his children without sight. God never made an imperfect man. Man being perfect has perfect spiritual senses, and by seeing the perfect man, Jesus pulled away the mask and allowed the perfect man to appear. The mortal man, who had been born blind, was brought to him. Jesus, by seeing the real man, pulled away the mask created by the material beliefs of the carnal mind, thus allowing the real condition of harmony and perfect being to appear and the man was instantly healed. Since the real man is perfect in every case, the imperfect material beliefs are destroyed by the operation of the truth, human beings cannot fail to manifest improved conditions.

Jesus also knew that since man was not material and does not live in matter, he could not die in matter. He knew this so clearly that he was able to gaze calmly after his body had been in the tomb for four days. Jesus knew that the real man, being spiritual, can never die, for God is his life. When he stood before the tomb of Lazarus he knew that the only thing that had taken place there was that certain human beings, who were governed by the carnal mind, had accepted a changed belief concerning Lazarus. They believed that he had lived in matter and was material, and hence that he had died in matter. Jesus looked through the mask and saw the real man who was alive all of the time, and by seeing the real man, Jesus destroyed the material belief, and thus made it possible for the real condition of life to appear. Having seen the real man, who was alive every instant, all that Jesus needed to do was to say, "Lazarus, come forth," and he came forth, alive.

MAN IS NOW IMMORTAL

The belief that man is now material, but that his immortality will appear after the death of his physical body, is rapidly giving place to a better understanding. It is beginning to become tolerably clear to many people that death is not the doorway through which human beings pass from a material state of existence into the kingdom of heaven.

St. Paul taught and declared that death is an enemy that can and will be destroyed. Enoch got rid of his physical body without dying. Elijah did the same. Obviously they destroyed and got rid of every material and erroneous mental quality. This

evangelization went on until there was nothing left in their consciousness but the spiritualized thought. They brought every material thought into subjection to Christ, and when the last mortal thought had thus been conquered and destroyed there was nothing of the carnal mind left in their consciousness to throw a material concept over them. People were then no longer able to see them as material men. They literally walked with God, as the Bible states, for material beliefs of the carnal mind no longer intervened to separate them from Him.

Jesus submitted to the crucifixion of his body on the cross in order that he might be the Wayshower. He had already raised from the dead, Lazarus, and the daughter of Jarius, and the son of the widow of Nain, but he wanted to go farther, and prove for the benefit of mankind that death is not a divine necessity and that it is possible for one to conquer it for himself through his own understanding of the law of Life. He wanted to prove that man is now immortal and that his immortality is brought to light not by the death of the physical body, but by demonstrating the power of Spirit. He, therefore, resuscitated his own body, after it had been in the tomb until the third day. He brought it back and exhibited it to hundreds of people, so that there might not be any question or dispute about it. Thereafter he got rid of his body, primarily as Enoch and Elijah had done. He thus proved the omnipotence of Spirit and its availability to meet the last and final human need. He proved that God is Life, and that man is now immortal and can never die, and that even the belief in death, that exists now, can be destroyed by the truth which he taught.

MAN IS NOW THE SON OF GOD
Do you think it is arrogant too much for us to claim that we are now the children of God? If so, then read what St. John says in I John 3:2, "Beloved, now are we the sons of God, and it doth not yet appear when we shall be: but we know that, when he shall appear, we shall be like him; for we shall see him as he is."

In making this statement it was as though John had said, "Jesus has now taught me the truth about myself. I now know that we are spiritual and not material. I cannot tell you what my spiritual self looks like, for I cannot see the spiritual through material eyes, but I know that he shall appear, we shall be like him."

St. Paul has said substantially the same thing in Romans 8:16, 17, where we read, "We are the children of God; and if children, then heirs, heirs of God, and joint-heirs with Christ."

Every one knows that when an estate is left to heirs, jointly, they take it share and share alike. We are joint heirs with Christ, we have inherited the same spiritual being, the same Life, the same immortality. It is through the understanding and apprehension of our real being that we rise above the fears and material beliefs of the carnal mind. In this way Christian Science heals the sick, regenerates the sinner, destroys fear, and brings peace in place of discord.

Jesus said, "Come unto me all ye that labour and are heavy laden, and I will give you rest," and Christian Science is teaching the human race that the true way to come unto him is to live the Life that he lived, to manifest the Love that he manifested, and to demonstrate the Truth that he taught. In this way it has helped many people to find rest, and peace, and health.

FEW STUDENTS FAIL IN PHYSICAL TESTS

Announcement was made at Purdue University of the physical standing of student members of the army reserve officers' training corps. The results of the examination are surprising, as only seventy young men out of 1269 were disqualified. Of the seventy, thirty-eight may yet be reinstated. The percentage of disqualification was 5.5-10 per cent. Twenty-five students were disqualified because of hernia, 10 were under weight, 11 had affected hearts, seven had defective vision, three were suffering from former injuries, three had bad hearing and three had flat feet. Eight others were disqualified for other causes.

Barbara in the Movies.

"G'wan, auntie, just lean out of that window, and you'll make a dandy Barbara Frietschie."

"Ah, you don't want me in your film. Look at all those pretty young girls."

"No, auntie, we want you. G'wan and make a star."

"All right. Shoot, if you must, this old gray head."—Film Fun.

ESSAY CONTEST IN THE NATIONAL BOXING BOARDS

SANTA ANA COUNTY BOARDS

Santa Ana school children are going to have an opportunity to enter the United States Army School Contest. In order to locally supervise this contest, and to secure recruits for the army, First Lieut. W. A. Mead arrived here yesterday from Los Angeles as local recruiting officer and has established a station at 110 1/2 E. Fourth St., where he will accept qualified men for enlistment in the United States Army. Sergeant Henry Ramsey and Bugler Charles W. Letts, of the 44th Infantry, are his assistants. Lieutenant Mead also has supervision over the recruiting parties in Orange and Fullerton. The 44th Infantry has been assigned by the war department and will be known throughout the service as "California's Own" Infantry Regiment.

Lieutenant Mead is also here in connection with the United States Army School Contest which is open to the students of all schools, except universities and colleges whether public or private, sectarian or non-sectarian. The winners may be boys or girls, black or white, or brown or red, American or foreign born.

Lieut. Mead explained the plan of the contest as follows:

In April 1919, a board of judges, consisting of the Secretary of War, Baker, General Peyton C. March and General John J. Pershing, will announce to the awaiting juvenile world the names of the three boys or girls who on February 20, 1920, wrote the best essays on the subject: "What Are the Benefits of an Enlistment in the United States Army?"

On May 5, 1920, these three boys and girls, accompanied by parents or guardians (railroad fares and all expenses paid to Washington and return for both winners and parents), will be presented with medals by Secretary of War Baker himself.

Gold medal, suitably engraved, to the winner of the first prize. Silver medal, suitably engraved, to the winner of the second prize. Bronze medal, suitably engraved, to the winner of the third prize. In addition, three beautiful silver cups, suitably engraved, will be presented to the winners by Secretary Baker to be carried back home by them as prizes for the schools they attend.

The contest is under the auspices of the war department, but the newspaper, Come Back, the official organ of the Walter Reed Hospital in Washington, asked permission to purchase the prizes. This permission was granted and the school children are really competing for prizes that were provided by maimed and injured soldiers now at Walter Reed Hospital.

There is no age limit in this contest and the little seven-year-old girl in Santa Ana, California, has the same chance of winning a prize as the 19-year-old high school boy of Baltimore.

New York State has many times the number of pupils that Nevada has, yet the chance of producing winners in each of these states is exactly the same.

Essays will be written in the classrooms on Friday, February 20, 1920, from notes if desired.

No essays will be more than 400 words in length.

Pencil, or pen and ink, may be used, but the essay will be written on only one side of the sheet.

Essays will be judged strictly on a basis of (1) originality, (2) expression, (3) sincerity.

Each school will be a judge of its own product. The principal of each school will appoint a board of three judges to select one essay as the entry from his school. He will then forward the entry not later than February 27, 1920, to the Army Re-

PARIS, Feb. 6.—Boxing authorities of two continents were expected here today to attend a two days' congress of the International Boxing Union.

America alone, of the leading nations, will not be formally represented. Delegates from England, Australia, Belgium, France, Greece, Holland, Italy, Norway, Switzerland and Argentine Republic have been certified.

New boxing rules, new regulations for the conduct of world's championship fights and the official appointment of the professional champions of the world figure prominently on the program of business outlined.

The union, which has for its ambition the supervision and direction of all international boxing, will recognize champions in the following classes: Flyweight, up to 112 pounds; bantamweight, up to 126 pounds; lightweight, up to 135 pounds; welterweight, up to 147 pounds; middleweight, up to 160 pounds; light-heavyweight, up to 175 pounds; heavyweight, everything above 175 pounds.

After a championship has been won, according to the new rules, the winner cannot refuse a lawfully submitted challenge, which the union construes as one filed with its officer. The champion cannot ignore a challenge because the stakes are too low and must answer within three months. The rules also provide that the champion's title cannot change hands unless it has been understood in advance that the championship is at stake.

Championship fights are established with a minimum of ten rounds and a maximum of twenty rounds. In a case of disagreement the champion is allowed the choice of the same number of rounds in which he won his title or successfully defended it.

Decisions are placed in the hands of a referee and three judges or a referee and one judge. In granting a decision the following considerations are outlined in the new rules: 1. Efficient attacks with both hands. 2. Defense. 3. General science. 4. Efficiency of the blows. 5. Endurance.

Another clause of the rules limits the fighter to one second in his corner and curbs the activity of that second by prohibiting him from talking or giving any advice by word or sign to the fighter in the ring. Such an act as dashing water on a prostrate boxer as a means of reviving him makes him disqualified immediately.

As compared at the present time the union consists of French, English, Swiss and Belgian boxing organizations or individuals, who, under the initiative of the French, have been working on an international association plan since 1910, when the French boxing federation attempted to convene an international conference. Neither the English nor American authorities showed any enthusiasm at that time and even now they are not greatly interested.

In 1913 another meeting was held and in 1914 the boxing union was organized. Activities were then interrupted by the war and this year's session again has the task of blazing the trail toward the elysium of boxing.

In 1913 another meeting was held and in 1914 the boxing union was organized. Activities were then interrupted by the war and this year's session again has the task of blazing the trail toward the elysium of boxing.

Publishers' Announcement

On and after February 1, 1920, the subscription rates of the Register will be as follows:

By carrier, by the month, 60 cents per month, payable monthly. By carrier, by the year, \$6.00 per year, payable annually in advance. By mail, by the month, 60c; by the year, \$5.00; all mail subscriptions payable in advance.

This increase is not only justified, but is made absolutely necessary by the increase in cost of production. Our advance is exactly 20 per cent—less than half the increase in the cost of production.

In the hope that we might avoid the necessity for increasing subscription rates, we have, for the past two years, sustained a heavy loss on circulation. That is, the total receipts from subscriptions have been much less than the cost of paper, delivery, and subscription collections.

Naturally, we cannot continue to sustain this loss, and it would not be fair to shift it to the advertisers, who now pay all the cost of news gathering, editorial work, type-setting, presswork, materials of all kinds (except print paper), rent, interest, insurance, taxes, advertising service, office supplies, overhead charges, etc. In short the advertisers pay all the cost of producing the paper (except the paper bill, delivery and subscription collections), and the subscribers, at the old rates, were paying much less than the cost of paper, delivery, and subscription collections.

Externally speaking, full justification of this increase is obvious. The Register's subscribers now charge the paper, and its owners individually, almost double the amount they used to charge for any commodity or service they may sell or render, directly or indirectly.

Aside from all other considerations, the Register has increased in size and improved in quality, so that its publishers believe it is well worth the increased subscription price; and it shall be our constant endeavor to continue to improve the paper in every way, so as to merit the friendly and appreciative reception we so confidently expect our subscribers to accord this announcement.

21 Acre Walnut Grove

for sale at \$2500 per acre. This grove is well located, A-1 soil, trees 25 years old, fully water stocked, and is one of the best groves in the county offered at this price. This grove produced over 20 tons of nuts last year and has averaged over 17 tons per year for the past 6 years. If interested in a real buy be sure to see us about this proposition.

The bigger your family, the less you can afford to buy common tea — it costs so much.

“What do you mean by that? The tea I am using costs much less than Schilling’s.”

By the pound, yes. By the cup, no. Schilling’s makes a lot more cups to the pound. It is actually cheaper.

Don’t believe it? Your grocer pays your money back if you don’t find it so.

There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

PROMINENT FOLKS TESTIFY

Sacramento, Calif.:—“For years I was a great sufferer. I had indigestion very badly and it seemed that there was no help for me as I had tried so many, many different remedies without getting any help. Finally, I tried Dr. Pierce’s Golden Medical Discovery and it cured me. I took only two bottles.”

J. P. CULVENSON,

3230 2nd Ave.

AFTER INFLUENZA Heart and Circulation Bad

Baker City, Oregon:—“I was taken with influenza January 4th and also had a nervous breakdown. My stomach was so bad I did not retain any food for three or four weeks and I was troubled with gas and sourness. I doctored with my two favorite doctors and a chiropractor who said my nerves were so badly deranged that I was on the verge of hysteria. My heart was bad and circulation so bad that my limbs were almost paralyzed. One day I sent for a copy of Dr. Pierce’s Common Sense Medical Adviser, which I read and decided to make a trial of Dr. Pierce’s medicines. At that time I was only able to stay up a few minutes at a time. After taking two bottles I was able to be on my feet all day. I am now able to eat anything without discomfort and never have the dryness in my mouth in the morning nor any bowel trouble. The ‘Pleasant Pellets’ and the ‘Medical Discovery’ according to directions, and the salt baths as directed in the ‘Medical Adviser’ were all I used. I walk 18 or 19 blocks at a time now and feel no ill effects.”

“Will always recommend Dr. Pierce’s remedies.”—Mrs. Wm. HOGGARD, 2630 Church St.

Wheelwright, horseshoeing and blacksmith. Expert service. W. E. Straw, Second and Sycamore.

News from Orange County Towns

Orange Happenings

ORANGE, Feb. 6.—The regular meeting of the Orange Granger, W. R. C., was held at the usual hour and place. Over thirty members were present, including all the officers except two of the color bearers.

Mrs. Jennie B. Crane, admitted to membership at a former meeting, was initiated. Mrs. Crane is a daughter of Mrs. Charles Baker, for many years an honored member of the corps and at present its Junior vice-president.

A proposed change in the by-laws, making the hour of meeting 2 in instead of 2:30 p. m., during the winter months, was rejected after considerable discussion.

A rising vote of thanks was tendered Comrades Teasdale and Hall for finishing work on the new locker of the corps. These lockers will be a great convenience and much appreciated.

It was decided to hold a Lincoln Tea on the afternoon of February 12. Mrs. Lillian Ellis kindly offering her home for the event. A silver offering will be taken for the benefit of the Syrian Relief Fund. The generous patronage of the public is solicited.

The next regular meeting of the corps will be held on Wednesday, February 18.

The regular meeting of the Center street Parent Teachers Association was held with one of the best meetings of the year. It is the custom of each grade to give the program at one of the P. T. A. meetings and the program yesterday was given by the second grade under the direction of Miss Reeves. The boys and girls each sang a school song, and a recitation was given by one of the little girls. F. T. Porter, the pastor of the First Christian church of Santa Ana gave the address of the afternoon, which was greatly enjoyed by all present. A piano-lecture was then given by Miss Ada Lois Short, accompanied by Miss Audrey Isabell. Mrs. D. P. Campbell, president of the Center street P. T. A. conducted the short business session after which the meeting adjourned. The attendance was the best this year, the picture going to the second grade which had an attendance of twenty mothers. The second grade will make an effort to keep the picture for the balance of the year.

The Woman's Home Missionary society of the Methodist church will give a banquet this evening to the girls who are members of the Queen Esther Circle of that church. The banquet will be given at six o'clock at the church.

Seated at the banquet table with the girls will be Mrs. Dundas of Arlington, Conference Secretary of the Young People's work; Mrs. Monroe of Garden Grove, district superintendent of Young People; Mrs. S. Sampson, wife of the pastor; Mrs. F. V. Pruitt, Superintendent of the Queen Esther Circle and Miss Mabel Thibault, President of the Woman's Home Missionary Society.

The Modern Priscillas held their regular meeting at the home of Mrs. Albert Hughes of Olive. Bowls of wild violets were used in decorating the rooms and after a short business session and fancy work, refreshments were served. The next meeting of the club will be held at the home of Mrs. A. W. Leitch of No. Tustin street. Eleven members were present and the guests of the club were Mrs. E. H. Adams, Mrs. R. Danker and Mrs. Beckman.

This evening at seven thirty the North West Division of the Christian church will entertain the other three divisions in a most unique social way. A special program, consisting of music, readings, reports of work done in all sections, refreshments and a social hour is in preparation. All the members and friends of the church are cordially invited.

Frank Menreal, an employee of the Central Lemon Association as a leader man fell from a wagon this morning breaking his right leg. Mr. Menreal was assisting in unloading some boxes. Having a box in his arms at the time he could not regain his balance and he was thrown heavily to the ground, suffering an injury which will confine him to the bed for some time.

At 7:15 this evening the Woman's Home Missionary society of the Methodist church will give an interesting program to which every one is invited to attend. Mrs. Dundas from Riverside and Mrs. Monroe of Garden Grove will be the speakers for the occasion and a good program of music has been arranged.

John H. Dreyer has sold his ranch on West Palmyra, formerly owned by R. L. Precht, to Frank J. Paul, recently from Iowa. The ranch consisted of 10 acres of valencias with a fine residence. The consideration was \$50,000. Mr. Dreyer expects to purchase some other property in this section.

Mr. and Mrs. J. E. Webster of 461 North Lemon arrived in Orange Sunday evening from Iowa, where they have been visiting since September. They drove east but on account of the bad roads sold their car and returned on the train.

Mr. and Mrs. C. H. Putnam and little son, Harold, of Los Angeles are at the home of Mr. and Mrs. O. K. Putnam. Mrs. Putnam was called to Orange on account of the serious illness of her father, R. C. Dalton of North Shaffer street.

The Keep Smiling chapter of the Westminister Circle of the Presbyterian church will meet at the home of Mrs. Ellis on South Glassell this evening at seven o'clock.

L. C. Law, proprietor of the grocery at El Modena, has traded the store to John Jones for a small lemon grove.

Home-made Candies at home-made prices. Nougats, fudges, creams. Lion Kandy Kitchen, 211 West 4th.

NAVEL PACKING SEASON OPENS AT TUSTIN

TUSTIN, Feb. 6.—The work of picking, packing and shipping navel oranges at the Tustin packing houses began this week. The work will be carried on rather deliberately at first, as the rush of the picking season has not yet commenced. Picking started Thursday. The Tustin Hills Citrus Association expected to ship about three carloads this week.

Work on Church Plans

The trustees and members of the building committee of the Tustin Presbyterian church, in conjunction with the architect, are working on plans for the new church, which they expect to build in the near future.

The plan of procedure is to first perfect a drawing of a church edifice which will meet the present and future needs of this community, and get a definite idea of what the cost will be. When that can be done a campaign will be started to raise the money.

On Wednesday afternoon a delegation of about thirty of the Tustin church members went in a party to visit the Calvary Presbyterian church in Long Beach, at Third and Atlantic streets. After a pleasant trip in automobiles, the party spent about an hour studying the details of the auditorium, class rooms and other church requirements. The auditorium of the Long Beach church has a seating capacity of four hundred and has arrangements for church activities, all on one floor. In dimensions and cost, it represents, it was felt, what would be good to have in Tustin.

The question to be decided now is whether to build the Tustin church with a basement. Some are in favor of a basement plan and others are not.

At the monthly meeting of officers and teachers of the Tustin Presbyterian Sunday school Monday night supper was served at 7 o'clock and a social time was enjoyed, after which a conference of Sunday school workers was held.

The Advent Christian church of the Tustin Advent Christian church will hold an all-day meeting at the home of Mrs. A. R. Dresser in Santa Ana next Tuesday.

A party of ten boys had a fine time last Friday night at the home of Roy Runnells. These boys comprised Rev. M. E. Ladieu's Sunday school class. They had a good time with games, music and refreshments.

Mrs. M. E. Ladieu is enjoying a visit from her mother and sister, Mrs. H. K. Arthur and Mrs. D. G. Lilley of Denver, Colo. They are spending a few months at Ocean Park. Rev. and Mrs. Ladieu also had a visit this week from their son, Albert, who is traveling through Arizona in the interest of the El Paso Herald.

The Sunday school class of little girls will be entertained Saturday afternoon by Mrs. Ladieu at the parsonage.

G. W. Pollard is enjoying a visit from his brother and wife from Buffalo, N. Y.

Mr. and Mrs. Lou Allen and family are at Palm Springs this week.

Mr. and Mrs. S. E. Tingley and Miss Margaret Tingley spent the day last Sunday on a trip to Palm Springs.

Mr. and Mrs. Franklin Grisct spent the week-end at Hemet. They accompanied Mr. and Mrs. H. C. Lang, who will make their home near Hemet.

Miss Mina Eells of Los Angeles was a guest at the F. T. Preble home at the week-end.

LEGAL ABATEMENTS ARE PUT INTO USE

From the 1st of January, 1919, to the 31st of December of the same year, 238 legal abatement notices against rodents, weeds, and scale pests were served on Riverside county properties according to the report of Horticultural Commissioner D. D. Sharp.

“Of this total,” says the report of the Riverside commissioner, “ninety-six were taken care of by the owners, the remainder being left to county treatment. For the same period, \$1,841.79 was paid on for abatement work by the county treasurer. Some of this money has been collected already and at the present time liens are being filed and action taken according to the horticultural law to collect the remainder. The larger part of this work has been done the last two months and fumigation is still being carried on although the weed and squirrel abatement has eased up somewhat at the present time. However, it will be carried on again a little later when weather conditions are more favorable.”

“It has been found that about 90 per cent of the property owners take care of the pest abatement without being served with a legal notice.”

Roller Skating, afternoons and evenings, at Armory—except Sundays and Mondays.

HOST OF FRIENDS MOURN DEATH OF FRED PAGE

YORBA LINDA, Feb. 6.—Fred Page of Olinda, who was instantly killed by a boiler explosion on the Santa Fe lease last Saturday, was well known in Yorba Linda. He was for several years engineer at the Richfield plant of the Yorba Linda Water Co. and had a host of friends in the community particularly among the earliest settlers in the valley.

Mr. Page left a wife and three sons to mourn his loss, a brother A. L. Page of Yorba Linda and cousins, Mr. and Mrs. P. S. Sparks of Rose Drive. The funeral was held Tuesday afternoon at the McAuley chapel in Fullerton and was attended by a host of sorrowing friends who gathered to pay their last respects to the memory of the young man. A wealth of beautiful blossoms and silent tribute to the esteem of the friends and relatives. The family have the sympathy of the community in their great sorrow.

Howard Brown, who has been a victim of the “grippe” is able to be out again.

Roy DeWitt has been confined to the house with an attack of “grippe” also.

Mr. and Mrs. E. E. Knight motored to Los Angeles on Tuesday and attended the concert given by the Los Angeles Symphony Orchestra.

Mr. and Mrs. Hargraves and sons spent Sunday in Ontario.

E. T. Walker is driving a new Buick and Ben Selover has ordered a new Chevrolet.

Mrs. Hallie Allee was the guest of Mr. and Mrs. Frank Delby at Olinda on Tuesday evening.

Mr. and Mrs. E. R. West, Mrs. Hargraves, Mrs. Fricke and Mrs. Ernest Walker motored to Los Angeles on Tuesday to spend the day.

Mrs. Rash Madsen has been on the sick list for the past week.

Mr. and Mrs. Herman Ulrich and family, of Wisconsin have been visiting with the former's sister, Mrs. Plummer Stuart at her pretty ranch home for several days. They left on Monday for Avalon to spend a week with their brother Mr. Albert Ulrich who is cashier of the Avalon National Bank. The visitors expect to return to the Stewart ranch the latter part of the week to spend a few more days before returning to their eastern home.

Frank Milhouse of Whittier was a caller at the West home on Wednesday afternoon.

Young People Wed

Two of Yorba Linda's popular young people surprised their friends by getting married this week, when Jack Gauldin took as his bride Miss Gladys Ryan. The ceremony was performed at the Christian church parsonage in Fullerton, following which the young couple took a few days honeymoon trip including Los Angeles, San Bernardino and Riverside in their itinerary. They are domiciled in House 75 on the Santa Fe lease in Olinda. They have been the cause of much entertaining in the past few days as Mr. Gauldin has many friends in the community, and Miss Ryan has been one of the most attractive and popular young ladies of the younger set. Mr. and Mrs. Frank Gauldin entertained with a beautifully appointed dinner to which sixteen relatives were bidden on Sunday afternoon and a party of young people surprised them at their new home Wednesday evening.

Mr. and Mrs. Barrington have been Sunday guests of the Jacobs family. They motored down to get Miss Edna Farrington who has been a house guest of the Misses Jacobs for the week end.

Harold Welch was a business visitor in Los Angeles on Thursday.

George Shaw was attending to matters concerning the Mutual Association in Los Angeles on Wednesday.

Mr. and Mrs. Henry Carnes of Olinda were looking up friends in town on Wednesday afternoon.

A number of Yorba Linda folks enjoyed the Cecil de Mille production “Male and Female,” at Anaheim on Wednesday evening. Among those who witnessed the performance were Mr. and Mrs. Ben Selover, Mrs. Will Cochran, Mr. and Mrs. Logsdon, Mrs. Roy Knight, Mrs. Young, Mr. and Mrs. Evan Townsend and Mr. and Mrs. C. R. Selover.

Mrs. Harry Holmes and Mrs. Will Cochran will go to Whittier on Saturday to be the guests of Mrs. Vera Priestley at a club affair given at her house on Saturday evening. They will be joined by Messrs. Holmes and Cochran and remain at the Foot-hill City for the week end.

Will Cochran attended a “High Jinks” at the Whittier Elks club on Wednesday evening.

Friends who were acquainted with Miss Maddock, a relative of the Quigley family will be grieved to learn of her death. The funeral took place in Los Angeles on Wednesday afternoon. Mrs. Mary Allan and George Quigley motored to Los Angeles to attend.

Mrs. Roberta Woodworth has been quite ill for several days.

Mrs. Bertha Schuler went to Los Angeles for the day on Wednesday.

Mrs. Sophie Hornson has returned from a few days stay at Long Beach.

Mrs. Burdick is entertaining her piece, Mrs. S. A. Woolsey of Superior, Nebraska.

A number of Yorba Linda's young-ers set enjoyed the fine music at the Olinda dance on Thursday evening.

Mrs. Brougher, mother of O. P. Brougher, is domiciled in the home of Mrs. Brophy on Yorba Linda boulevard.

Mr. Siram is able to be at his desk at the Yorba Linda Water Co. office after a several days absence on account of illness.

There was a special service held at the Yorba Linda Presbyterian church on Wednesday evening in celebration of the Ordination of the newly appointed elders, Messrs.

YOUNG PEOPLE FORM BRANCH OF W. C. T. U.

GARDEN GROVE, Feb. 6.—A Young People's branch of the W. C. T. U. was organized at the Methodist church Monday evening, with the following officers: President, Miss Elizabeth Brown; vice-president, Miss Agnes Harkness; secretary, Miss Edna Beardsley; treasurer, Mr. Archie Stuck.

The meetings will be held the third Monday evening of each month and all young people of the community are invited to attend and become members of this splendid organization.

Messrs. Pettingill and Harper of Syracuse, N. Y., and Mr. Richardson of Los Angeles, state president of Southern California Y. P. B., presented the work of the branch and launched the young people of Garden Grove in this society of high ideals and sociability.

Missionary Society Meets

Mrs. O. H. Fulwater was hostess to the Woman's Foreign Missionary of the Methodist church, Wednesday, in all-day session. A sumptuous luncheon was served at the noon hour. A business meeting was held at 2 p. m. It was decided that the society have charge of the evening service early in March, the exact date to be announced later. The program committee is Mrs. C. B. Crosby, Mrs. Ray Christiansen, Mrs. A. F. Mills and the president, Mrs. G. R. Reyburn. Mrs. Ladd, district secretary, was present and gave some very helpful suggestions.

Reports are not very favorable from Thurston Richardson, who submitted to a second operation at the California Hospital two weeks ago.

Complete Census Count

Miss Mabel Head is again in the post office, having completed the census canvass for Garden Grove precincts Nos. 1 and 2. Mrs. Bovey has completed the census canvass for Stanton and Los Alamitos townships. Mrs. Emmett has completed the canvass of Buaro precinct and expects to have finished Katella precinct by February 15.

Install Burglar Alarm

A burglar alarm has been installed in the bank and several firms.

Weatherwax, Stewart, Welch and Flory.

Oil Leases Extended

It is rumored that Harold Brewer has leased his ranch property to the General Petroleum Oil company during the past week. This is interesting news as it brings the leases north of the boulevard.

Howard Brown motored to Los Angeles on Wednesday to “junk” his old Mitchell.
